Full analysis

Overview

Mystore is an India-focused, ONDC-connected multi-vendor marketplace presenting consumer shopping across fashion, grocery, electronics, home, beauty, and wellness categories alongside AI-powered seller storefronts, omnichannel commerce, logistics, marketing, payments, and operational services.

Scam/Impersonation Risk

No phishing, impersonation, malicious-content, or blacklist contradictions were observed. The homepage presents a coherent marketplace model, identifies Indian sellers and brands, and shows no sensitive forms, wallet-connect behavior, hidden forms, or suspicious scripts. Its long-running domain presence, sustained archive history, clean external reputation, and established traffic footprint converge on a legitimate operating website.

- Domain registered in 2006, approximately 20.24 years old.
- 134 archive snapshots spanning 2005–2026, with 22 years tracked.
- The homepage records no red-flag findings and no detected phishing or brand-impersonation indicators.

Regulatory Verification Notes

The homepage identifies Mystore, provides a Gurgaon Division, India business address, telephone contact, and a defined marketplace and seller-platform model. No specific financial or marketplace licence number is claimed in the available disclosures; this is a limited transparency point rather than evidence of misconduct. No adverse third-party broker signal was present.

- Served from AS396982 (GOOGLE-CLOUD-PLATFORM - Google LLC, US).
- TLS certificate issued by YR2, validation level DV, valid to 2026-09-25.
- The homepage identifies the business as an ONDC-connected marketplace and provides business contact details.

What to Verify Next

For institutional or regulated engagements, confirm any applicable Indian business, commerce, tax, or sector-specific registration through the relevant official registry. For ordinary marketplace use, confirm seller-specific delivery, return, and payment terms within the transaction flow.

- The homepage exposes delivery-location selection and shopping-bag functionality.
- The homepage provides Sign In and Account entry points for account-based use.

Summary Verdict

Mystore is a legitimate, established, and trustworthy website with a coherent commercial purpose and no observed contradiction indicators. Normal interaction, including account login and standard marketplace use, is appropriate.

Infrastructure Integrity

The supplied infrastructure record does not identify a trusted CDN/WAF or establish origin-protection posture. This is neutral infrastructure context and does not undermine the independently convergent identity, reputation, historical, and content evidence.

Closing Assessment

Normal consumer, seller, and account interactions may proceed, with ordinary commercial diligence applied to individual sellers and transaction terms.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about mystore.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
