

Is nailsnorth.ca a scam? TrustSniffer's high-risk assessment: 0/100

nailsnorth.ca

Verdict

0

OUT OF 100

CRITICAL RISK

nailsnorth.ca shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Nails North, a regional mobile nail salon offering premium manicure/pedicure services with pricing, contact email, and social links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

At a glance

The page as captured

<https://nailsnorth.ca/>

What nailsnorth.ca served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

What appears to be a local mobile nail-salon website, Nails North presents premium in-home manicure, pedicure, gel, nail-extension, and custom nail-art services for customers in Parry Sound, Muskoka, Simcoe, and surrounding areas, with prices supplemented by travel and peak-scheduling surcharges.

Scam/Impersonation Risk

Confirmed external reputation contradictions materially elevate the risk of sensitive interaction. The site content itself is consistent with a small local beauty service and does not present a login form, payment interface, cryptocurrency functionality, or other obvious phishing mechanics; however, external detections recorded 17 malicious classifications, including detections associated with Fortinet and Sophos, and the domain appears on blacklist sources. A separate major web-safety source returned no malicious result, but that isolated negative signal does not offset the convergent malicious and blacklist findings. No conflicting legal-entity names or direct brand-impersonation indicators were identified, so the concern is the domain's external threat reputation rather than a demonstrated identity conflict.

EVIDENCE

- The homepage presents manicure, pedicure, gel, nail-extension, and nail-art services with stated prices and surcharge qualifications.
- External reputation telemetry recorded 17 malicious detections and Tier-1 detections from Fortinet and Sophos; blacklist status was also recorded.
- Domain registration telemetry records creation on 2023-12-08, with an age of approximately 2.7 years.
- Historical coverage records span 2024-01-09 through 2025-08-03, representing 2 years tracked, with no detected semantic repurposing.

Regulatory Verification Notes

The available content supports a plausible local-service business model, but the real-world operator is not independently verified by the supplied evidence. The site does not state a licensing authority or license number, leaving a regulatory-disclosure gap that should be treated as a verification matter rather than standalone evidence of fraud. The registration record identifies Namespro Solutions Inc. as registrar, while the site uses a domain-validated TLS certificate; these are technical or administrative signals and do not establish the operator's legal identity or regulatory status.

EVIDENCE

- Registration telemetry identifies Namespro Solutions Inc. as the registrar; the recorded creation date is 2023-12-08 and the expiration date is 2026-12-08.
- Hosting telemetry identifies AS13335, operated by CLOUDFLARENET—Cloudflare, Inc., US.
- The site's transport certificate is issued by WE1, uses DV validation, and is valid through 2026-09-19.
- The homepage provides service descriptions, pricing, geographic coverage, and social links but does not state a licensing authority or license number.

What to Verify Next

Before any sensitive interaction, an independent check should confirm that the advertised business name, service area, and operator contact channels correspond to a real local business through an offline or independently sourced channel. Any applicable personal-service, mobile-business, or local commercial registration should be confirmed with the relevant authority, and payment arrangements should use a method offering transaction protection rather than an irreversible transfer. Credentials should not be reused for this site, and sensitive information should not be submitted unless the external reputation issue has been resolved and the operator has been independently confirmed.

EVIDENCE

- The homepage contains one contact form and no sensitive form fields.
- The site links to Facebook and Instagram as external social channels.
- The page analyzer identified no login form, hidden form, wallet connection, or suspicious inline script.
- The available regulatory disclosure state is unclear, with no licensing authority or number shown in the supplied page content.

Summary Verdict

The overall posture is **critical trust risk**, driven by confirmed external malicious and blacklist signals that outweigh the site's otherwise coherent local-service presentation and benign observed page behavior. The website should therefore be treated as unsuitable for sensitive interaction unless its status is independently resolved.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and all observed addresses were CDN edge infrastructure rather than an exposed origin; this reduces direct origin exposure but is only a mitigating technical control and does not establish legitimacy.

EVIDENCE

- Observed edge addresses were 104.21.65.73, 172.67.189.39, 2606:4700:3030::6815:4149, and 2606:4700:3037::ac43:bd27.
- All four observed addresses resolved through AS13335; no likely origin candidate was identified.
- The site's TLS certificate uses DV validation, is issued by WE1, and expires at 2026-09-19T20:11:45+00:00.

Closing Assessment

Passive viewing is the only proportionate current use; login, credential submission, and financial transactions should be withheld until the domain's external threat detections are independently explained and the business operator is confirmed through a trusted channel.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	38%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of [nailsnorth.ca](#).

- The request stayed on [nailsnorth.ca](#). It was not redirected to another domain. CLEAR
- Registration is published under Namespro Solutions Inc.. CLEAR
- DNS for this domain is served by [cloudflare.com](#), across 2 name servers. NOTED
- The registration is paid up to 2026-12-08. NOTED
- The earliest public archive of this site is from 2024-01-09. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [nailsnorth.ca](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
