Full analysis

Overview

The website is the homepage of the News Agency of Nigeria, presenting national and international news, agency information, subscription services, archives, media platforms, and user portals for a government-established news-distribution and publishing organization.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed blacklist findings were observed. The homepage has substantial, coherent news-agency content, although unrelated casino SEO material and an external test-domain link indicate a limited content-integrity issue rather than evidence of fraudulent identity or malicious operation.

- The homepage identifies the News Agency of Nigeria and provides news categories, NAN platforms, archives, subscriptions, and login portals.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.
- Browser analysis found no login form, hidden sensitive form, wallet connection, clipboard hijacking, or suspicious inline script; the homepage nonetheless contained unrelated casino promotional content and a test.com link.

Regulatory Verification Notes

The site presents an established institutional identity and a publishing business model based on news distribution, subscriptions, archives, and media services. No license or registration number is claimed in the supplied site evidence; for a news publisher this is a disclosure item requiring contextual confirmation, not an indication of impersonation. The available broker-reputation comparison produced no match.

- The homepage links to About Us, Contact Us, NAN Archives, NAN Newsroom, NAN Prwire, NAN BizCom, and related agency services.
- The domain was registered in 2019 and is approximately 6.69 years old; registrar: GO54 Limited.
- The site is hosted on AS47583, operated by AS-HOSTINGER / Hostinger International Limited, CY.
- TLS is issued by YE2 at DV validation level and is valid to 2026-10-15.

What to Verify Next

Confirm the organization’s current institutional status and any applicable publishing or government authorization through an independent official source, and validate contact and portal channels using established agency references before formal onboarding.

- The homepage provides dedicated About Us and Contact Us pages for institutional verification.
- The site exposes separate Web Login, Portal Login, and E-Mail Login pathways.
- The homepage’s unrelated casino material should be reported to the site operator and monitored for removal.

Summary Verdict

The website presents as a legitimate, established, high-trust news organization with a coherent institutional purpose and no observed identity or threat contradiction. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to four likely origin addresses rather than a detected CDN edge, with no CDN vendor identified. Hosting is provided by Hostinger International Limited through AS47583 in Ukraine; this infrastructure supports service delivery but is not, by itself, proof of legitimacy.

Closing Assessment

Standard use is appropriate, with routine institutional and channel verification suitable for regulated onboarding or other formal engagements.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about nannews.ng at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
