Key findings

- Automated classification: Not Scam.
- Public web-archive history exists since 2022.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is a Japanese content portal that organizes first-episode links for serialized web manga, personal stories, and creator blogs, with connections to mobile applications and official social-media accounts; its apparent purpose is informational and entertainment-oriented content distribution.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents coherent manga and creator-content listings, including named series and “read episode one” links, while directing visitors to the NAPBIZ site, mobile apps, Instagram, and Twitter. It shows no login form, sensitive-data form, payment flow, investment proposition, phishing behavior, or brand-impersonation indicators. The site's established continuity and clean external reputation further support a legitimate identity.

- The homepage lists serialized Japanese manga and personal-story content with episode links and named creators.
- The homepage provides links to official social accounts and mobile applications; no sensitive form or login mechanism was observed.
- The domain was established in 2022 and is approximately 4.18 years old; archival coverage contains 37 snapshots spanning 2022–2025 across 4 years.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no blacklist hit.

Regulatory Verification Notes

The site's apparent informational business model does not present a financial or investment service requiring regulatory authorization. No licensing claim or license number is evident in the supplied site content, so regulatory verification is not materially relevant to ordinary content use but remains a minor disclosure point if the operator represents itself as a formal business. No adverse broker or third-party reputational match was identified.

- The homepage describes an informational entertainment portal and presents no financial products, investment returns, or regulated services.
- No license authority or license number is shown in the supplied business-model evidence.
- The site is served on AS13335 by Cloudflare; its TLS certificate is issued by WE1 using DV validation and is valid through 2026-09-11.

What to Verify Next

For ordinary browsing, reading, account login, and standard site use, no exceptional restriction is indicated. If formal commercial engagement is contemplated, confirm the operator's business identity and any applicable registration directly through the relevant Japanese registry, and independently confirm official contact and social-media channels.

- The content and behavior assessment found no phishing indicators, hidden forms, wallet activity, or suspicious scripts.
- The site's external reputation coverage was fully evaluated with no malicious or suspicious findings.
- The site links to Instagram and Twitter accounts presented as official social channels.

Summary Verdict

The website presents as a legitimate, established, and trustworthy entertainment-content portal with no observed scam, phishing, impersonation, or material abuse indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare's CDN/WAF, and all observed addresses are CDN edge servers rather than the origin; this reduces direct origin exposure and is a mitigating infrastructure control, although it is not independently proof of legitimacy.

Closing Assessment

Prospective users may proceed with normal browsing and standard interaction; formal commercial relationships should follow the organization's ordinary identity and registration checks.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of napbizblog.jp.

- The request stayed on napbizblog.jp. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2022-05-28. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about [napbizblog.jp](#) at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
