Is navi90.com a scam? TrustSniffer's high-risk assessment: 0/100

navi90.com

Verdict

0
OUT OF 100

CRITICAL RISK

navi90.com shows high-risk / scam indicators.

> This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk | Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be	Portuguese-language news website (Diário Nacional PT) publishing headlines and articles across world, economy, politics, sports, culture and technology. Standard editorial footer with legal/privacy links; appears to be an informational news portal.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

At a glance

Malware engines	**14 flagged it** VirusTotal	RISK
Google Safe Browsing	**Not listed** Google	CLEAR
Abuse reports on the host	**0 reports** AbuseIPDB; shared hosting inflates this count	NOTED
Domain age	**9 months old** Most scam domains are under a year old	WATCH
Web archive	**Archived since 2011** Public history exists	CLEAR
Certificate	**Encrypted connection** Issued by WE1	NOTED

The page as captured

https://navi90.com/

What navi90.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2011.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as “Diário Nacional PT,” a Portuguese-language online news portal covering world affairs, economics, politics, sports, culture, health, and technology. Its apparent business model is advertising-supported editorial publishing, potentially supplemented by sponsored content or subscriptions.

Scam/Impersonation Risk

Confirmed external reputation contradictions make this a high-risk site for sensitive interaction. Multiple external security assessments identified malicious characteristics, and the domain is listed on external blacklists; this outweighs the otherwise ordinary news presentation and the absence of an observed login form, wallet connection, or overtly deceptive page content. No distinct legal-entity conflict or brand impersonation was identified, but the operator’s real-world identity remains unverified. Historical records extend substantially earlier than the current registration record, which does not by itself establish continuity of ownership or operation.

EVIDENCE

- External reputation assessment recorded 14 malicious detections among 19 evaluated results, with a tier-one threat detected.
- The domain was marked as externally blacklisted, while the Google Safe Browsing result was not malicious.
- WHOIS records show registration on 2025-11-21 through Hosting Concepts B.V. d/b/a Registrar.eu, with an age of 0.75 years; historical records were first seen on 2011-02-07 and last seen on 2026-07-30, spanning 16 tracked years.

Regulatory Verification Notes

The homepage and editorial footer provide standard “About,” contact, legal, and privacy navigation, but the available material does not identify a verified operating entity or disclose a license or registration number. For an informational news portal, the absence of a financial-services license is not itself evidence of fraud; however, it leaves the publisher’s accountability and any commercial or sponsored-content arrangements unclear. The available third-party broker dataset did not produce a match, which is only a limited reputational context and not a regulatory determination.

EVIDENCE

- The homepage identifies the publication as “Diário Nacional PT – Informação de Portugal” and organizes content under Mundo, Economia, Política, Desporto, Cultura, Saúde, and Tecnologia.
- The site’s footer contains legal and privacy links, but no verified licensing authority or license number is identified in the supplied page evidence.
- The site is served from AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The transport certificate is DV-validated, issued by WE1, and valid to 2026-10-16.

What to Verify Next

Before any sensitive interaction, the publisher’s legal identity should be confirmed through independent corporate and media-registration sources rather than relying solely on the site’s own pages. The external malicious and blacklist findings should be resolved through an independent security review of the exact domain and any files or advertisements delivered from it. Contact details should be validated through an independently sourced channel, and any proposed payment, subscription, donation, or account-related activity should be checked for a separately established merchant and refund mechanism.

EVIDENCE

- The page inspection found no login form, sensitive form, hidden form, or wallet-provider activity.
- The homepage contains “Sobre nós” and “Contactos” navigation, providing locations for publisher and contact disclosures to be checked.
- The observed page behavior completed successfully without detected cloaking, clipboard hijacking, wallet-drainer activity, or suspicious inline scripts.

Summary Verdict

The overall posture is **critical and unsuitable for sensitive interaction**. The site's normal-looking editorial content does not reconcile the confirmed external reputation contradictions, and the available evidence is insufficient to independently verify the operator's identity. The appropriate interpretation is a potentially compromised, maliciously classified, or otherwise untrustworthy web presence rather than an established publisher.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a genuine defensive layer and limits direct exposure of the hosting environment, but it is only a mitigating infrastructure characteristic and does not validate the site's legitimacy. All observed addresses were CDN edge addresses; an origin server address was not observable.

EVIDENCE

- Four observed edge addresses were associated with AS13335: 104.21.5.42, 172.67.132.242, 2606:4700:3032::6815:52a, and 2606:4700:3037::ac43:84f2.
- Infrastructure resolution identified Cloudflare CDN/WAF service with no origin candidates observed.

Closing Assessment

Enterprise users should restrict interaction to passive review, avoid account, credential, payment, and financial activity on the site, and require independent validation before permitting the domain in business workflows or security allowlists.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 **Governance Risk**

- The registration record withholds contact details for the operator.
  Registration and ownership `rule:KF_WHOIS_HIDDEN`
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
  Registration and ownership `rule:KF_WHOIS_PRIVATE`

02 **Sensitive Interaction Risk**

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
  Analysis engine `signal:direct_threat`
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
  External reputation `rule:EXT_BLACKLIST_CRITICAL`

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of navi90.com.

- The request stayed on navi90.com. It was not redirected to another domain. CLEAR
- Registration is published under Hosting Concepts B.V. d/b/a Registrar.eu. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-21. NOTED
- The earliest public archive of this site is from 2011-02-07. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about navi90.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
