

Is needwaxed.com safe? TrustSniffer's low-trust assessment: 40/100

needwaxed.com

Verdict

40

OUT OF 100

LOW TRUST

needwaxed.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Simply Soft, a South Paris, Maine spa offering waxing, skincare, reiki, massages and clinics. Includes address, phone, email, staff bios and booking CTA. Appears to be a legitimate local service site.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Welcome To Simply Soft - Expert Waxing & Skincare In A Calm Judgment Free Space

What needwaxed.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2015.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

needwaxed.com presents Simply Soft, a South Paris, Maine beauty and wellness business offering Brazilian and brow waxing, skincare, reiki, massage, staff information, and appointment booking. Its apparent business model is a local, appointment-based spa service marketed through direct contact and online booking.

Scam/Impersonation Risk

The site's visible presentation is consistent with a local spa rather than a brand-impersonation or phishing page, and no login form, wallet connection, or credential-collection mechanism was observed. However, the benign page content is materially outweighed by confirmed external reputation contradictions: the domain received two malicious detections and appears on confirmed blacklist records from two sources. The homepage also contains prompt-injection-like content, while browser testing identified suspicious network activity and non-whitelisted external submissions. These signals support a **highly cautionary posture for credentials, account creation, booking payments, or other sensitive interaction**, even though no direct identity contradiction or explicit impersonation was observed.

EVIDENCE

- External reputation telemetry recorded 2 malicious detections and a confirmed blacklist status from 2 sources.
- The homepage contains a prompt-injection-like text pattern classified as a page red flag.
- Browser testing completed 2 runs and recorded 8 external XHR requests, 10 external POST requests, and 2 non-whitelisted POST requests.
- The registration record shows creation on 2015-03-21; archive telemetry records first observation on 2015-11-07, last observation on 2026-05-14, and 12 years tracked.

Regulatory Verification Notes

The About page and homepage provide a business name, staff information, service descriptions, local-market positioning, and direct contact details, but the available material does not establish an independently verified legal operator or regulated status. No license authority or license number is claimed in the supplied site content; for a beauty and wellness business, this is a regulatory-transparency item requiring external confirmation rather than standalone evidence of fraud. The domain is registered through GoDaddy.com, LLC, while the site uses a valid domain-validated TLS certificate; these are infrastructure and registration facts, not proof of the operator's legal identity. No matching broker signal was identified in the supplied third-party context.

EVIDENCE

- The About page provides staff bios and business information but no stated licensing authority or license number.
- Domain registration telemetry identifies GoDaddy.com, LLC as registrar, with an expiration date of 2027-03-21.
- Hosting telemetry identifies AS209242 operated by CLOUDFLARESPECTRUM – Cloudflare London, LLC, US.
- TLS telemetry identifies issuer WE1, validation level DV, and validity through 2026-11-14T18:08:41+00:00.

What to Verify Next

Before any sensitive interaction, independently confirm that Simply Soft is an operating local business through an offline or independently sourced contact route and confirm that the booking destination is controlled by the same business. Licensing or practitioner requirements should be checked with the relevant Maine or local authority where applicable. Any payment, cancellation, or appointment terms should be reviewed directly in the booking flow, and the legitimacy of the linked social profiles should be established independently rather than relying solely on links presented by the site.

EVIDENCE

- The homepage and About page contain the business, staff, and service claims that should be matched against independent local records.
- The site includes a Book Now route that should be checked for destination consistency before submission of personal or payment information.
- Captured page analysis found no login form, hidden form, or sensitive form, so any later request for credentials or financial information would represent a distinct interaction requiring separate validation.
- The site links to Facebook and Instagram profiles that can be checked through independent navigation.

Summary Verdict

The website should be treated as **low trust with elevated sensitive-interaction risk**. Its credible local-service presentation is insufficient to overcome the confirmed reputation contradictions, and the available evidence does not establish that the apparent business identity is safe for sensitive use.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, and the observed address belongs to CDN edge infrastructure rather than an identified origin server. This provides a mitigating layer against direct origin exposure, but protective hosting infrastructure does not validate the website operator or offset the confirmed reputation risk.

Closing Assessment

Restrict activity to passive browsing until the business, booking destination, and any requested payment or personal-data exchange have been independently validated; account, credential, and financial interactions should not proceed on the current evidence.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

Identity verification

Status	LIKELY
--------	--------

Identity score	76/100
----------------	--------

Identity verification confidence	38%
----------------------------------	-----

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of needwaxed.com.

- The request stayed on needwaxed.com. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GoDaddy.com, LLC. [CLEAR](#)
- DNS for this domain is served by domaincontrol.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-03-21. [NOTED](#)
- The earliest public archive of this site is from 2015-11-07. [CLEAR](#)
- It is hosted on CLOUDFLARESPECTRUM, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about needwaxed.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
