

Is netvagas.com.br legit? TrustSniffer's high-trust assessment: 90/100

netvagas.com.br

Verdict

90

OUT OF 100

HIGH TRUST

netvagas.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-10 by automated analysis. Classification confidence 70%.

What this site appears to be

Portuguese-language job board (Netvagas) offering candidate registration, employer job postings, search functionality and account login. Uses a consent management platform listing many ad/analytics vendors. No evidence of phishing, crypto, or high-risk investment activity.

Evidence status and limitations

Evidence completeness: UNKNOWN

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2004.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Netvagas is a Portuguese-language employment and recruitment marketplace serving candidates and employers in Brazil. It presents job-search functionality, candidate registration, employer vacancy postings, candidate-search tools, account login, curriculum services, and employer profiles, with an apparent business model based on recruitment services, paid employer offerings, and advertising.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent employment-marketplace model: candidates can register, search vacancies, publish curriculum information, generate a curriculum PDF, and define professional objectives, while employers can register, post vacancies, search candidates, and create company profiles. The site's login and registration flows are consistent with that stated purpose, and the supplied content contains no phishing, impersonation, cryptocurrency, investment, or other high-risk abuse indicators. External reputation checks also recorded no malicious or suspicious detections, supporting the conclusion that this is an established legitimate service rather than an impersonation site.

EVIDENCE

- Homepage: describes Netvagas as a Brazil-wide employment site and provides separate candidate and employer registration, login, vacancy-search, and candidate-search functions.
- Homepage service descriptions: provide curriculum publication and PDF generation for candidates, and vacancy publication and company-profile features for employers.
- Domain registration: registered 2010 (~15.91 years old).
- Web archive: 120 snapshots spanning 2004–2026 (23 years tracked).

Regulatory Verification Notes

The available pages include Terms, Privacy, Contact, Help, and clarification links, which is consistent with a functioning recruitment marketplace. The supplied pages do not present a licensing or registration number for a regulated activity; for this type of employment platform, that is a verification and disclosure point rather than evidence of deception. The site's established identity, sustained web presence, clean external reputation, and mainstream transport and hosting arrangements provide affirmative support for legitimacy.

EVIDENCE

- Legal and support navigation: the homepage exposes Terms, Privacy, Contact, Help, and clarification pages.
- Hosting: served from AS13335 (CLOUDFLARENET - Cloudflare, Inc., US).
- TLS: certificate issued by WE1, DV validation, valid to 2026-09-19.
- Reputation coverage: external checks recorded 0 malicious detections, 0 suspicious detections, and 0 abuse reports.

What to Verify Next

For institutional onboarding or employment-related reliance, confirm any applicable Brazilian business, consumer-protection, or employment-marketplace obligations with the relevant official registry, particularly if paid employer services are being procured. Confirm that vacancy details, recruiter identities, and any requested documents are consistent with the prospective employer through an independent channel before an employment decision is made. Routine privacy and consent settings should also be reviewed before accepting advertising or analytics permissions.

EVIDENCE

- The homepage offers candidate and employer account paths, creating distinct verification requirements for applicants and recruiting organizations.
- The site provides Terms and Privacy access, allowing review of service conditions and personal-data handling before account use.
- The platform's stated functions include candidate profiles and employer-posted vacancies, supporting independent validation of counterparties.

Summary Verdict

Netvagas has a legitimate, established, high-trust posture with no observed contradiction or impersonation signal. Its content, operating model, historical continuity, reputation evidence, and technical controls converge on a credible recruitment service. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare CDN and WAF services, with observed addresses belonging to Cloudflare edge infrastructure rather than a directly exposed origin. This reduces direct exposure of the underlying service and is a mitigating security control, although protective infrastructure alone is not proof of legitimacy.

Closing Assessment

Prospective users and enterprise partners may proceed with normal account and marketplace activity, applying routine validation to employment listings, counterparties, and any commercial engagement.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of netvagas.com.br.

- The request stayed on netvagas.com.br. It was not redirected to another domain. [CLEAR](#)
- DNS for this domain is served by cloudflare.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-09-16. [NOTED](#)
- The earliest public archive of this site is from 2004-09-02. [CLEAR](#)
- It is hosted on CLOUDFLARENET, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about netvagas.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
