

Is neuromaster.com.br safe? TrustSniffer's low-trust assessment: 40/100

neuromaster.com.br

Verdict

40
OUT OF 100

LOW TRUST

neuromaster.com.br is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for Clínica Neuromaster (Águas Claras) describing medical specialties, diagnostic exams, team, contact details, opening hours, accepted insurance and a data consent/privacy policy. Primary purpose: inform patients and facilitate appointment booking.

Evidence status and limitations

Evidence completeness: **UNKNOWN**

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://neuromaster.com.br/>

What neuromaster.com.br served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

The website presents itself as Clínica Neuromaster, a local medical clinic in Águas Claras offering specialist consultations, diagnostic examinations, insurance-related services, patient information, and appointment scheduling. Its apparent business model is fee-for-service healthcare supported by patient appointments, examinations, and convênio reimbursements.

Scam/Impersonation Risk

The site's content is consistent with a medical-clinic website and contains no observed phishing form, credential-collection mechanism, cryptocurrency feature, or overt financial solicitation. However, this benign presentation is materially outweighed by confirmed external threat detections: the domain is listed on external blacklists, and two malicious detections were recorded. These are direct reputation contradictions rather than evidence of a particular impersonated brand; no separate brand-impersonation or phishing pattern was identified in the supplied page analysis. The site should therefore be treated as unsuitable for sensitive interaction until the contradiction is independently resolved.

EVIDENCE

- The homepage identifies Clínica Neuromaster and presents neurology, psychiatry, examinations, medical staff, and appointment-booking content.
- External reputation telemetry records 2 malicious and 2 suspicious detections, with an external blacklist hit.
- The registration record shows creation on 2011-03-26, an age of 15.42 years, and expiration on 2030-03-26.
- Historical records identify observations from 2012-04-06 through 2025-03-03, representing 14 years tracked.

Regulatory Verification Notes

The legal and informational content describes the clinic, its specialties, examinations, team, accepted insurance, contact arrangements, and data-consent or privacy provisions. The supplied evidence does not show a claimed or verified professional, healthcare, or corporate licence number, so regulatory status remains a disclosure and verification gap rather than a standalone finding of fraud. The real-world operator identity is not independently verified, and the external blacklist signal should be considered a serious reputational warning rather than a legal or regulatory determination. The clinic presentation itself contains no obvious commercial-investment or financial-services claims.

EVIDENCE

- The “A Clínica,” “Nossa equipe,” “Especialidades,” “Exames,” “Convênios,” “Contato,” and privacy-related content provide the stated healthcare disclosures.
- The site contains one appointment-request and data-consent form, with no password or login form detected.
- Hosting is identified as AS47583, AS-HOSTINGER—Hostinger International Limited, CY, with the resolved infrastructure registered in UA.
- The site uses a valid DV TLS certificate issued by YE1, valid through 2026-11-15.

What to Verify Next

An independent confirmation should establish that Clínica Neuromaster operates at the Águas Claras location and that the published telephone, opening hours, appointment process, and insurance relationships are genuine. The clinic’s legal entity and any applicable healthcare-professional or facility registrations should be checked directly with the relevant Brazilian registry or regulator, using contact details obtained independently rather than relying solely on the website. Until the blacklist findings are explained and cleared through independent channels, sensitive information, account credentials, and payment details should not be submitted.

EVIDENCE

- The homepage gives the stated location as Felicità Shopping, Rua 36 Norte, second floor, Águas Claras–DF, and lists opening hours.
- The contact and appointment pages provide the operational channels requiring independent confirmation.
- The privacy and data-consent material identifies the categories of information handling that should be reviewed before submitting patient data.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site has a plausible healthcare presentation, but the confirmed blacklist and malicious-detection signals create a material contradiction that prevents the available evidence from supporting normal trust in the domain.

Infrastructure Integrity

The site resolves directly to four likely origin IPs, with no CDN detected and no edge-IP layer identified. Hosting on AS47583, operated by Hostinger International Limited, is a concrete infrastructure fact but does not establish legitimacy; the infrastructure provides limited mitigation against the reputation concerns identified above.

Closing Assessment

Use should remain limited to non-sensitive review while independent clinic, regulatory, and reputation checks are completed; credentials, patient data, and financial details should not be submitted in the interim.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of neuromaster.com.br.

- The request stayed on neuromaster.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2030-03-26. CLEAR
- The earliest public archive of this site is from 2012-04-06. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about neuromaster.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
