

# Is nexusmsk.ru safe? TrustSniffer's moderate-trust assessment: 65/100

nexusmsk.ru

## Verdict

65

OUT OF 100

MODERATE TRUST

nexusmsk.ru is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Company site for ООО "Хексис", a logistics provider in Moscow offering international freight, customs services, warehousing and recruiting information. Contact phone, address and email are listed; no payment prompts or investment offers detected.

## Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

What nexusmsk.ru served when TrustSniffer captured it on 2026-08-21. The page may look different now.

### Key findings

- Automated classification: Governance Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

### Full analysis

#### Overview

This is a Russian-language corporate website for ООО “Нексус,” presenting a Moscow-based logistics and freight-forwarding business that offers international cargo transportation, customs services, warehousing, and related recruitment information.

#### Scam/Impersonation Risk

No contradictions were observed: the available evidence contains no phishing, impersonation, malicious-content, or confirmed blacklist indicators. The site's presentation is consistent with a conventional B2B services business, with no login mechanism, sensitive submission form, payment prompt, investment offer, or cryptocurrency activity detected. The homepage does contain credibility-quality weaknesses, including promotional claims such as “your reliable partner” and counters rendered as “0+” and “0k”; these reduce presentation quality but do not, in this evidence set, establish deceptive intent.

#### EVIDENCE

- Homepage: Presents logistics services, company messaging, vacancies, and contact pathways without payment or investment solicitation.
- Homepage and observed browser behavior: No login form, hidden form, password destination, wallet connection, clipboard manipulation, or external posting activity was detected.
- Domain registration and archive record: Registered 2024 (~2.41 years old); archive records span 2024-10-03 to 2025-11-13 (2 years tracked).
- External reputation checks: No malicious or suspicious detections, abuse reports, or impersonation signature matches were identified in the available results.

#### Regulatory Verification Notes

The website makes an on-page identity claim for OOO “Hekcyc” and presents ordinary corporate information, but the operator’s real-world identity is not independently verified by the supplied evidence. The available content does not show a license claim or license number; for a logistics provider, this is a disclosure and verification matter rather than evidence of a scam. Ownership transparency is limited, and the site should therefore be treated as an apparently legitimate business presentation whose legal standing and contracting entity require independent confirmation. A valid transport-encryption certificate and stable hosting support technical continuity but do not establish licensing or corporate identity.

#### EVIDENCE

- About and contact pages: Identify the business as OOO “Hekcyc” and describe its logistics-related operations and company information.
- Hosting infrastructure: Served from AS197695 (AS-REGRU - \_Domain names registrar REG.RU\_, Ltd, RU).
- Site transport encryption: TLS certificate issued by YR2, validation level DV, valid to 2026-10-06.

#### What to Verify Next

Before entering a material commercial relationship, independently confirm the company’s legal registration, contracting name, authority to provide the proposed logistics or customs services, and any insurance or agent representations through the relevant official registries and counterparties. Confirm the published contact channels and physical location through an independent route, and ensure that quotations, invoices, bank details, and contractual documents correspond to the independently confirmed entity. For recruitment activity, verify the vacancy and hiring process separately before providing personal documents or making any payment.

#### EVIDENCE

- Contact page: Provides a telephone number, physical address, and email channel suitable for independent cross-checking.
- Careers pages: Contain role-specific recruitment information for customs and foreign-trade positions, creating a distinct channel for employment-related verification.
- Homepage: Includes an inquiry call to action but no sensitive data-entry form, supporting a staged verification process before exchanging documents.

Summary Verdict

The website has a **moderate-trust posture**: its content and observed technical behavior are consistent with a functioning corporate logistics site, while the available evidence does not independently establish the real-world operator. No scam or impersonation contradiction was identified, but confidence is not sufficient to treat the site as fully verified for sensitive or high-value engagement.

Infrastructure Integrity

The site resolves directly to infrastructure associated with AS197695 and AS-REGRU in Russia, with no CDN or WAF layer identified and two likely origin addresses exposed. This provides limited infrastructure-based mitigation; the valid TLS deployment protects transport confidentiality but should not be interpreted as proof of legitimacy.

Closing Assessment

Routine browsing is reasonable, but independent entity, contracting, and payment-detail checks should precede high-value transactions, sensitive document exchange, or other material commitments.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by registration and ownership.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF\_WHOIS\_INCOMPLETE

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of nexusmsk.ru.

- The request stayed on nexusmsk.ru. It was not redirected to another domain. CLEAR
- Registration is published under REGRU-RU. CLEAR
- DNS for this domain is served by ru., across 2 name servers. NOTED
- The registration is paid up to 2027-03-26. NOTED
- The earliest public archive of this site is from 2024-10-03. CLEAR
- It is hosted on AS-REGRU, from a server in RU. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about nexusmsk.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
