

# Is nfsglobalsolution.com a scam? TrustSniffer's high-risk assessment: 0/100

nfsglobalsolution.com

## Verdict

0

OUT OF 100

CRITICAL RISK

nfsglobalsolution.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Website for NFS Global Solutions, a consultancy offering visa, student admissions, and manpower deployment services; WordPress site with contact details, services, and a newsletter form.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

## The page as captured

<https://nfsglobalsolution.com/>

What nfsglobalsolution.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: less than 1 year (registration continuity).
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Security Alert

Kaspersky flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

NFS Global Solutions is a corporate consultancy and recruitment website presenting visa consultancy, student-admission assistance, skilled-manpower deployment, employer–job-seeker connections, and related placement services, with revenue apparently derived from consulting and placement charges.

### Scam/Impersonation Risk

**Confirmed external reputation contradictions materially outweigh the site's otherwise conventional consultancy presentation.** The site contains no obvious phishing form, brand-impersonation signal, or overt financial-fraud feature, but external security checks recorded a confirmed blacklist status and multiple malicious detections, including a Tier-1 security-vendor detection. The homepage also uses prominent credibility claims such as “15K+ People Hired” and describes an international expansion history; these claims are not independently established by the reviewed evidence and should not be treated as validation of the operator. The resulting posture is unsuitable for credentials, payments, document submission, or other sensitive interaction until the external findings are resolved.

#### EVIDENCE

- External reputation checks recorded a confirmed blacklist status from two sources and 7 malicious detections out of 12 effective detections.
- The homepage displays the unverified counter “15K+ People Hired.”
- The homepage describes establishment in 2010, registration in Ras Al Khaimah in 2017, and expansion to the United States in April 2023.
- The site's transport encryption is domain-validated rather than organization-validated.

#### Regulatory Verification Notes

The reviewed pages describe NFS Global Solutions as a consultancy and refer to a rebranding as Overseas Job Consultancy, but the available content does not present a licensing authority or license number for its visa, admissions, or recruitment activities. This is a regulatory-disclosure gap requiring independent verification, not by itself proof of fraud. The site's apparent identity is therefore only partially supported: the content is coherent with a recruitment and visa consultancy, while independent connection to a verified legal operator remains unconfirmed. No matching broker signal was identified in the available third-party context.

#### EVIDENCE

- The homepage and About Us content describe the consultancy's claimed UAE registration and later United States expansion.
- The reviewed business-model data records no claimed license authority and no license number.
- Domain registration record: created 2025-12-10; age 0.69 years; registrar GoDaddy.com, LLC.
- TLS certificate: issued by Go Daddy Secure Certificate Authority - G2, validation level DV, valid to 2026-12-12.

#### What to Verify Next

Before any sensitive engagement, an institution should independently confirm the operator's corporate registration and the authorization required for immigration, recruitment, and manpower-placement services with the relevant UAE, United States, or jurisdiction-specific registries. The claimed business history and rebranding should be corroborated through independently sourced corporate records rather than relying on the website. Contact channels should be confirmed through an offline or independently obtained route, and any request for passports, identity documents, fees, or account credentials should remain suspended until the blacklist findings have been investigated and cleared.

#### EVIDENCE

- The About Us page contains the site's historical and expansion claims requiring independent corroboration.
- The Services and Employees pages describe the regulated or sensitive service areas requiring authorization checks.
- The Contact Us page is the appropriate location for validating official communication channels through an independent route.
- The homepage contains one newsletter form and no detected password or sensitive-data form in the reviewed capture.

### Summary Verdict

The website has a **critical trust posture** for sensitive interaction. Its stated consultancy purpose is not inherently suspicious, but the confirmed external reputation contradictions create an unacceptable basis for treating the site as reliable for credentials, financial activity, or identity-document exchange. Apparent business legitimacy remains insufficiently established against the severity of the external findings.

### Infrastructure Integrity

The site resolves directly to infrastructure operated by GoDaddy.com, LLC, rather than a detected CDN edge, with a single likely origin address. This provides ordinary hosting and valid transport encryption but offers no meaningful basis for attributing legitimacy; infrastructure protections cannot offset the external reputation risk.

#### EVIDENCE

- Hosted on AS398101 (GoDaddy.com, LLC), United States.
- Infrastructure records show 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- TLS certificate issuer: Go Daddy Secure Certificate Authority - G2; validation level DV; valid to 2026-12-12.

### Closing Assessment

Sensitive interaction should remain suspended unless independent legal, operational, and reputation checks produce clear resolution, with any later engagement limited to the minimum necessary and subject to documented institutional controls.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

### What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox, external reputation.

## 01 Governance Risk

- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.

Registration and ownership rule:KF\_WHOIS\_PRIVATE

- The registration record withholds contact details for the operator.

Registration and ownership rule:KF\_WHOIS\_HIDDEN

## 02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct\_threat

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV\_NONWHITELISTED\_POSTS

- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT\_BLACKLIST\_CRITICAL

## Identity verification

|                                  |        |
|----------------------------------|--------|
| Status                           | LIKELY |
| Identity score                   | 76/100 |
| Identity verification confidence | 38%    |

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of nfsglobalsolution.com.

- The request stayed on nfsglobalsolution.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2026-12-10. NOTED
- It is hosted on GO-DADDY-COM-LLC, from a server in US. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about nfsglobalsolution.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
