Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Ninja Xpress Indonesia is a corporate logistics website presenting nationwide parcel delivery, business shipping, supply-chain management, refrigerated delivery, freight forwarding, cross-border logistics, package tracking, and shipping registration, with revenue derived from shipping and logistics services.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, blacklist findings, or malicious reputation signals were observed. The homepage presents a coherent logistics business model, with no credential-harvesting forms, financial manipulation, cryptocurrency activity, or suspicious browser behavior. Its claims regarding service scale are commercial statements rather than evidence of impersonation.

- The homepage identifies Ninja Xpress Indonesia and describes parcel delivery, refrigerated shipping, supply-chain management, and nationwide logistics services.
- The homepage contains no sensitive form, hidden form, or external password-submission destination.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist finding.

Regulatory Verification Notes

The site's content concerns ordinary logistics and shipping services rather than a regulated financial offering. No licensing or registration claim was identified on the reviewed pages; this is a limited disclosure point for administrative verification, not evidence of deception. Registration privacy is an administrative detail, while the domain's sustained presence, recognized registrar, and established service content support a legitimate identity.

- The domain was registered on 2016-04-12 and is approximately 10.31 years old; registrar: GoDaddy.com, LLC.
- Web archives contain 24 snapshots spanning 2017–2020, covering 4 tracked years.
- The site is hosted on AS396982, Google Cloud Platform — Google LLC, US.
- TLS is issued by YR2 at DV validation level and is valid through 2026-10-23.

What to Verify Next

For procurement or regulated enterprise engagement, confirm the contracting entity, applicable logistics permits, insurance coverage, and service terms through the organization's official corporate channels and the relevant Indonesian registries. For a shipment, independently match the tracking reference, billing details, and customer-support route against the information supplied during the transaction.

- The homepage identifies business and consumer logistics services but does not display a licensing or registration number.
- The site provides package-tracking and shipping-registration functions suitable for matching transaction records.
- The service model is based on shipping and logistics fees rather than investment or financial returns.

Summary Verdict

The website presents as a legitimate, established, and trustworthy corporate logistics service with a coherent business purpose and no observed contradiction or abuse signal. Normal interaction, including account login and standard service use, is appropriate.

Infrastructure Integrity

The site operates from mainstream Google Cloud infrastructure with valid transport encryption. This infrastructure provides a reasonable protective layer against basic hosting and interception risks, although infrastructure alone does not establish business legitimacy.

- Hosting network: AS396982, Google Cloud Platform — Google LLC, US.
- TLS issuer: YR2; validation level: DV; certificate expiry: 2026-10-23.

Closing Assessment

Standard account, shipment, and support interactions are appropriate, with ordinary procurement and contractual checks suitable for formal enterprise use.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ninjapress.co.

- The request stayed on ninjapress.co. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by googledomains.com, across 4 name servers. NOTED
- The registration is paid up to 2028-04-11. CLEAR

- The earliest public archive of this site is from 2017-04-05. CLEAR
- It is hosted on GOOGLE-CLOUD-PLATFORM, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ninjapress.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
