

Is nipofestival.com.br legit? TrustSniffer's high-trust assessment: 100/100

nipofestival.com.br

Verdict

100

OUT OF 100

HIGH TRUST

nipofestival.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Event landing page for Nipo Festival (18–20 September 2026) at Taguatinga Shopping. Provides event details, FAQs, attractions, and instructs users to buy tickets via Sympla or at the entrance. Encourages donation of 1kg food for reduced-price entry.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

nipofestival.com.br is an event and ticketing information website for the Nipo Festival, presenting a cultural and Asian gastronomy festival scheduled for 18–20 September 2026 at Taguatinga Shopping, with admission promoted through Sympla or at the venue and a reduced-price entry option linked to a 1 kg food donation.

Scam/Impersonation Risk

No scam, phishing, blacklist, brand-impersonation, or identity-contradiction signals were observed. The site presents a coherent event purpose, provides venue and admission information, and does not request credentials or expose sensitive forms. Available external reputation checks found no malicious or suspicious findings, although coverage was partial; this supports a low apparent scam risk without independently proving the operator's real-world identity.

EVIDENCE

- The homepage identifies the Nipo Festival, its dates, Taguatinga Shopping venue, attractions, FAQs, and admission arrangements.
- Browser behavior recorded no login form, hidden form, external password submission, wallet activity, cloaking, or suspicious script activity.
- Domain registration records show registration on 2016-10-28, with an age of approximately 9.82 years.

Regulatory Verification Notes

The available content is consistent with a local cultural event rather than a financial or otherwise visibly regulated service. The site does not state a licensing authority or license number; this is a limited disclosure point relevant to confirming the event organiser and ticket seller, not evidence of a scam. The available evidence supports an apparently legitimate, established site, while the real-world operator identity remains independently unverified. A third-party broker-reputation dataset produced no match and should be treated only as contextual support.

EVIDENCE

- The homepage describes event programming, venue arrangements, charitable food-donation admission, and ticket access through Sympla or the venue.
- The site is hosted on AS47583, operated by AS-HOSTINGER / Hostinger International Limited, CY.
- Transport encryption uses a DV certificate issued by YE1, valid to 2026-10-02.
- The page contains no stated licensing authority or registration number.

What to Verify Next

Before payment or credential-related interaction, the prospective user should independently confirm the organiser's legal identity, the event listing and payment destination, ticket refund or cancellation terms, and the venue's acknowledgment of the event. Confirmation should be obtained through independently sourced Taguatinga Shopping or Sympla contact channels rather than relying solely on information presented by the event website.

EVIDENCE

- The event FAQ specifies the venue access arrangements and identifies the admission process.
- The site's published content distinguishes between event admission and additional attractions such as restaurants, bazaars, shows, workshops, and cultural activities.
- The page analysis found no sensitive submission form, making independent confirmation of the external payment process the relevant remaining control.

Summary Verdict

The overall posture is **high trust and low apparent risk**, with evidence consistent with an established and apparently legitimate event website. The classification supports ordinary site use, but it should not be interpreted as independent proof of the operator's identity.

Infrastructure Integrity

The site resolves directly to four likely origin IP addresses, with no detected CDN edge IPs or CDN deployment. This configuration provides less intermediary shielding than a CDN-backed site, but the infrastructure is resolved, technically attributable to a mainstream hosting provider, and does not by itself indicate malicious activity.

Closing Assessment

Normal browsing is reasonable; independent confirmation of the organiser, transaction terms, and payment protections should precede any material payment or credential interaction.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of nipofestival.com.br.

- The request stayed on nipofestival.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2030-10-28. CLEAR
- The earliest public archive of this site is from 2017-04-08. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about nipofestival.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
