

# Is nipponimportsltd.com safe? TrustSniffer's moderate-trust assessment: 70/100

nipponimportsltd.com

## Verdict

70

OUT OF 100

MODERATE TRUST

nipponimportsltd.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Not Scam

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Nippon Imports is a car dealership site showing inventory (Toyota, Mazda, Subaru, etc.) for Mombasa, Kenya. The page lists vehicle specs and contact options (phone, email, WhatsApp) and a simple inquiry form. No login or payment flows visible on the captured page.

## Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
  - Module-level completeness metadata is unavailable for this legacy report.

What nipponimportsltd.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

## Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

## Full analysis

### Overview

This website is a Mombasa-based automotive dealership storefront presenting used-vehicle inventory from manufacturers including Toyota, Mazda, Subaru, Honda, Nissan, and Mercedes, with vehicle specifications and enquiry options through telephone, WhatsApp, email, and a contact form. Its apparent business model is to generate vehicle-sale enquiries and related dealership business rather than process direct online payments.

### Scam/Impersonation Risk

No contradictions were observed: there is no confirmed phishing, impersonation, blacklist, or conflicting legal-identity signal in the supplied evidence. The homepage does contain an anti-impersonation notice warning visitors about fraudulent websites, messages, emails, and invoices; this is a protective disclosure rather than evidence that the dealership site itself is impersonating another entity. Interactive testing identified substantial page changes, console errors, and one unfamiliar external request, but did not identify cloaking, hidden sensitive forms, credential capture, wallet activity, or payment-flow abuse. These observations support caution around dynamic interaction without establishing malicious conduct.

#### EVIDENCE

- The homepage identifies “Nippon Imports” and displays vehicle inventory, specifications, and enquiry options.
- The homepage contains an explicit notice concerning websites, SMS messages, emails, and invoices impersonating Nippon Imports.
- Historical records show 9 archive snapshots spanning 2018–2025, representing 8 years tracked, with no detected suspicious repurposing or semantic drift.
- The registration record lists creation on 2023-10-24 and an age of 2.82 years.

#### Regulatory Verification Notes

The available pages present a dealership identity and operational contact details, including office hours, telephone numbers, WhatsApp access, and an About/Contact structure. However, the supplied content does not show an independently verified legal operator, business-registration identifier, motor-trade licence, or licence number; this is a transparency and verification gap, not evidence of a scam. The site’s moderate-trust posture is supported by functioning, content-rich pages, clean available threat indicators, valid transport encryption, and identifiable hosting infrastructure, while the operator’s real-world identity remains unverified. No broker-reputation match was supplied, which is contextual information only and not a regulatory determination.

#### EVIDENCE

- The About and Contact areas provide dealership contact channels and office hours but no visible licence or registration number.
- The registration record lists Spaceship, Inc. as registrar.
- The site is served from AS28753, Leaseweb Deutschland GmbH, Germany.
- TLS uses issuer YR2 with DV validation and is valid to 2026-10-31.

#### What to Verify Next

Before a deposit, document exchange, or other high-value transaction, the prospective counterparty should independently confirm the dealership’s registered legal name, physical operating address, vehicle ownership or import documentation, and any applicable Kenyan business or motor-trade registration. Payment instructions should be validated through a separately obtained contact route, with the beneficiary name matched to the verified business and payment protections retained. Vehicle identification numbers, mileage, service history, and availability should also be checked independently before funds are released.

#### EVIDENCE

- The homepage provides vehicle-specific fields including make, model, year, mileage, fuel type, transmission, engine capacity, and location.
- The captured site exposes one contact form and does not show a login or online payment flow.
- The published office-hours information provides a basis for an independently initiated operational check.

Summary Verdict

The website merits a **moderate-trust posture** and is consistent with a functioning, apparently legitimate local dealership presence, with no observed contradiction indicating a scam or impersonation operation. Confidence is limited because the available evidence does not independently establish the real-world operator behind the site.

Infrastructure Integrity

The site resolves to a single identified Leaseweb Deutschland GmbH hosting address in Germany under AS28753, with no CDN or edge-IP layer detected. This provides clear infrastructure attribution but less distributed edge-layer protection than a CDN-backed deployment; infrastructure remains a mitigating technical signal only and does not establish business legitimacy.

Closing Assessment

Ordinary browsing and enquiry activity is proportionate, while independent counterparty, vehicle, documentation, and payment-beneficiary checks should precede any sensitive or high-value commitment.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

- 01 Governance Risk

  - The public registration record for this domain is incomplete.  
Registration and ownership rule:KF\_WHOIS\_INCOMPLETE
- 02 Dynamic Interaction Caution

  - The structure of the page changed sharply while it was loading.  
Behaviour in a sandbox rule:BEHAV\_DOM\_DENSITY\_SPIKE
  - The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.  
Behaviour in a sandbox rule:BEHAV\_DOM\_DIFF\_AFTER\_INTERACTION

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

## What TrustSniffer observed

First-party facts recorded during the assessment of nipponimportsltd.com.

- The request stayed on nipponimportsltd.com. It was not redirected to another domain. CLEAR
- Registration is published under Spaceship, Inc.. CLEAR
- DNS for this domain is served by rcnoc.com, across 4 name servers. NOTED
- The registration is paid up to 2027-10-24. CLEAR
- The earliest public archive of this site is from 2018-08-09. CLEAR
- It is hosted on LEASEWEB-DE-FRA-10, from a server in DE. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about nipponimportsltd.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
