- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website is the official norisbank retail-banking platform, presenting current accounts, savings products, loans, cards, online banking, and customer-service functions for individuals. Its apparent purpose is to provide direct banking services and support account acquisition through digital channels.

Scam/Impersonation Risk

No contradictions, phishing indicators, impersonation signals, or confirmed blacklist findings were observed. The homepage presents a coherent norisbank identity, while external reputation checks recorded no malicious or suspicious detections; the site's long-running historical presence and stable banking presentation further support an established identity.

- Domain registered in 1999 (~27.5 years old).
- 1,485 archive snapshots spanning 1999–2026 (28 years tracked).
- Homepage analysis found no brand-impersonation indicators, hidden forms, wallet activity, or suspicious scripts.
- External checks recorded 0 malicious detections, 0 suspicious detections, and 0 abuse reports.

Regulatory Verification Notes

The homepage identifies norisbank GmbH, supplies legal and contact information, and states an affiliation with Deutsche Bank Group. It presents current accounts, savings products, cards, loans, and digital-banking services; however, specific licensing or registration particulars are not clearly disclosed in the supplied page evidence. This is a transparency item for regulatory confirmation, not evidence of deception. The available third-party broker context contained no matching warning.

- Hosted on AS8373 (DEUBA-NET – Deutsche Bank AG, DE).
- TLS certificate issued by DigiCert EV RSA CA G2, with EV validation, subject organisation Norisbank GmbH, valid to 2026-10-22.
- The homepage provides legal information and identifies norisbank GmbH.
- The homepage states affiliation with Deutsche Bank Group.

What to Verify Next

Before formal onboarding or institutional engagement, confirm the entity's current permissions and registration status through the relevant German financial-services register. Match the legal entity and contact channels

against independently obtained records, then review applicable account terms, fees, and customer-protection provisions before committing funds.

- The legal and contact pages provide the identity records to match against an independent registry.
- The account-opening workflow is the appropriate point to review contractual terms and disclosures.
- The homepage supplies the stated group affiliation for independent confirmation.

Summary Verdict

The site presents as a legitimate, established, and trustworthy banking service with no observed contradiction or impersonation signal. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves to a single likely origin address, with no CDN or WAF detected. Direct origin exposure is a technical configuration characteristic rather than an indication of illegitimacy.

Closing Assessment

Normal account access and standard banking interaction may proceed, subject to ordinary review of contractual terms and applicable regulatory information.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about norisbank.de at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
