Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

NTV Kenya is a Kenyan news and entertainment media website presenting news, live television, podcasts, radio, sports, politics, business, lifestyle programming, events, and social channels for a broad audience.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent media identity, detailed editorial categories, named programmes, live content, and established social-channel links. It contains no phishing indicators, sensitive login forms, wallet functionality, or other high-risk interaction patterns. The available external reputation evidence is clean, with no malicious, suspicious, or impersonation findings.

- The homepage identifies NTV Kenya and provides extensive news, television, radio, podcast, sports, and entertainment content.
- The homepage links to TikTok, Twitter, Instagram, Facebook, and YouTube channels consistent with a public media presence.
- The homepage contains no sensitive forms or untrusted submission destinations.
- The domain was registered on 2022-03-04 and is approximately 4.41 years old.

Regulatory Verification Notes

The site provides visible Terms & Conditions, an NMG Privacy Policy, rules, FAQs, and contact information. Its apparent business model is advertising-supported broadcasting and digital media rather than a regulated financial service, so no financial licence claim is expected from the observed content; licensing status is therefore not a material concern for the services presented. The available third-party broker-reputation context produced no match.

- The homepage exposes links for Terms & Conditions, NMG Privacy Policy, Rules, FAQs, and Contact Us.
- The site presents news, entertainment, broadcasting, podcasts, and audience programming rather than financial products.
- Hosted on AS16509 (AMAZON-02 - Amazon.com, Inc., US).
- TLS certificate issued by Amazon RSA 2048 M04 with DV validation, valid to 2027-01-25.

What to Verify Next

For institutional onboarding or formal partnership, confirm the relevant publishing or corporate contact through an independently sourced channel and retain the applicable terms and privacy documentation for the engagement record.

- The homepage provides a Contact Us pathway for official communication.
- The site identifies NMG in its privacy-policy link.
- The homepage publishes the applicable terms, rules, and privacy materials.

Summary Verdict

The website presents as a legitimate, established, and trustworthy media platform with strong content coherence, clean reputation signals, and no observed impersonation or phishing indicators. Normal interaction, including account login where offered and standard site use, is appropriate.

Infrastructure Integrity

The site is served through Amazon infrastructure with a valid Amazon-issued DV TLS certificate. This provides transport protection and operational resilience, although infrastructure protection is appropriately treated as a mitigating control rather than independent proof of legitimacy.

Closing Assessment

Normal browsing and standard engagement are appropriate; formal commercial or institutional relationships should follow the organisation’s usual independent contact and onboarding controls.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ntvkenya.co.ke.

- The request stayed on ntvkenya.co.ke. It was not redirected to another domain. CLEAR
- Registration is published under HOSTAFRICA EAC. CLEAR
- DNS for this domain is served by awsdns-52.net, across 4 name servers. NOTED
- The registration is paid up to 2027-03-04. NOTED
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ntvkenya.co.ke at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
