

Is oabscs.org.br safe? TrustSniffer's low-trust assessment: 40/100

oabscs.org.br

Verdict

40

OUT OF 100

LOW TRUST

oabscs.org.br is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-19 by automated analysis. Classification confidence 55%.

What this site appears to be

Official-looking site for OAB São Caetano do Sul (regional bar association). Provides news, events, commissions, partner listings, contact details and member features. No obvious phishing or financial solicitations detected.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What oabscs.org.br served when TrustSniffer captured it on 2026-08-19. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

What appears to be a regional institutional website for OAB São Caetano do Sul, presenting legal-association news, events, commissions, partner organizations, member services, public resources, contact information, and links associated with the wider OAB network.

Scam/Impersonation Risk

The site's content is consistent with a local bar-association portal: the homepage presents institutional sections, executive leadership, organizational history, financial-accountability information, events, public legal resources, and links to OAB SP, AASP, CAASP, Facebook, and Instagram. No identity inconsistency, direct impersonation pattern, phishing form, credential-collection form, or financial solicitation was observed in the reviewed pages. However, this benign presentation is outweighed by confirmed external reputation contradictions: two malicious detections, one suspicious detection, and a confirmed blacklist signal from external sources. The result is a material risk for sensitive interaction even though the visible content itself does not resemble a typical phishing or investment scheme.

EVIDENCE

- The homepage identifies “OAB São Caetano do Sul” and provides institutional, commission, event, partner, member-service, and contact sections.
- The homepage contains no login form, hidden sensitive form, password-submission destination, wallet connection, or financial solicitation.
- Domain registration records show creation on 2016-07-06 and an age of 10.13 years.
- Archived records show 26 snapshots spanning 2020–2026, with 7 years tracked.

Regulatory Verification Notes

The reviewed institutional pages include “Diretoria Executiva,” “História da Subseção,” “Prestação de Contas,” “Palavra do Presidente,” and references to OAB SP, AASP, CAASP, OAB Prev, and related legal services. These elements support an apparently coherent organizational purpose, but the site’s real-world operator identity is not independently verified by the available evidence. No license or registration number was identified in the reviewed page content; for an institutional legal-association site, this is a disclosure and verification gap rather than standalone evidence of fraud. The available third-party broker dataset produced no match, which provides no additional adverse broker-specific context. The external blacklist and malicious-detection findings remain the principal reason sensitive interactions require heightened scrutiny.

EVIDENCE

- The homepage lists institutional governance, accountability, legal-resource, and member-service pages.
- The homepage links to OAB SP, AASP, CAASP, Facebook, and Instagram.
- The site’s transport encryption uses a DV certificate issued by YR2, valid through 2026-11-14T20:09:06+00:00.
- The site is served through AS275714, identified as E-Consulters Enterprise LTDA, BR.

What to Verify Next

Before any sensitive interaction, an independent confirmation should establish that the domain is the currently authorized web address for the OAB São Caetano do Sul subsection. The organization’s status and contact details should be checked through the parent OAB SP organization or an independently sourced official directory, rather than relying solely on links presented by the site. Any request involving authentication, document submission, payment, or personal data should be confirmed through an independently obtained telephone number or in-person channel.

EVIDENCE

- The homepage identifies the regional subsection and provides links to the parent OAB SP organization.
- The homepage presents contact details, addresses, events, and member-service references that can be compared with independently sourced organizational records.
- The reviewed pages contain no sensitive form, reducing the immediate need for credential or document submission during basic inspection.

Summary Verdict

The website presents a credible institutional profile but carries a **low-trust posture for sensitive interaction** because external threat intelligence identifies confirmed adverse reputation signals. Apparent organizational legitimacy therefore does not establish that the domain is authorized or safe for login, credential submission, financial activity, or other consequential transactions.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and the observed address is an edge address rather than an independently exposed origin. This provides a mitigating layer against direct infrastructure exposure but does not resolve the adverse reputation findings or independently establish site legitimacy.

Closing Assessment

Use should remain limited to non-sensitive, read-only review until the domain and any requested interaction are independently confirmed through the organization’s established offline or parent-organization channels.

Written analysis generated 2026-08-19 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of oabscs.org.br.

- The request stayed on oabscs.org.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED

- The registration is paid up to 2028-07-06. CLEAR
- The earliest public archive of this site is from 2020-08-15. CLEAR
- It is hosted on AS275714, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about oabscs.org.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
