Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2010.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Odisha TV is a regional Indian news and media website presenting Odisha, national affairs, entertainment, jobs, education, weather, sports, and live television, supported primarily by advertising and optional audience accounts.

Scam/Impersonation Risk

No contradictions were observed. The homepage has a coherent news-media purpose, carries current editorial coverage, and presents ordinary account functions such as login, bookmarks, profiles, and notifications rather than deceptive financial or credential-harvesting mechanics. External reputation checks found no malicious, phishing, blacklist, or impersonation indicators, supporting a legitimate assessment.

EVIDENCE

- The homepage identifies the service as Odisha TV and provides news, weather, jobs, education, entertainment, sports, and live-television coverage.
- The homepage's account flow uses Google, Facebook, or email sign-in and links to terms and privacy information; no hidden or externally posted sensitive forms were observed.
- The domain was registered in 2008 and is approximately 18.21 years old.
- The archive contains 5,000 snapshots spanning 2010–2022, covering 13 tracked years.

Regulatory Verification Notes

The site presents itself as a news and media publisher, funded by advertising and optional audience features, rather than as a financial or otherwise visibly licensed service. No specific license claim or registration number is presented in the supplied page evidence; this is a transparency item for ordinary corporate verification, not an indication of fraud. External broker-context review found no matching record.

EVIDENCE

- The homepage describes editorial categories and advertising placements consistent with a regional media business.
- The site's hosting infrastructure is AS13335, operated by CLOUDFLARENET—Cloudflare, Inc., US.
- Its TLS certificate is issued by WE1 at DV validation level and is valid through 2026-10-12.
- The site falls within the top one million in the recorded global traffic ranking, at rank 121880.

What to Verify Next

For institutional onboarding, confirm the publisher's legal entity and any applicable media registrations through an independent corporate or sector registry. Confirm official support and contact channels through a separately sourced route before establishing a formal commercial relationship.

EVIDENCE

- The homepage provides terms of use and privacy-policy links for account activity.
- The site offers standard audience functions, including subscriptions, notifications, bookmarks, and profile access.
- The homepage links to established identity providers for sign-in.

Summary Verdict

Odisha TV presents as a legitimate, established, and trustworthy regional media operation with a coherent business model and no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

Cloudflare CDN and WAF protection front the site, with observed traffic terminating on Cloudflare edge infrastructure rather than an exposed origin. This provides a meaningful layer of resilience and exposure reduction, while remaining a mitigating infrastructure signal rather than proof of legitimacy.

EVIDENCE

- Observed edge addresses are 104.16.36.6 and 104.16.37.6, both on AS13335.
- Cloudflare is identified as the hosting provider and CDN/WAF operator.
- No likely origin IP was identified among the observed addresses.

Closing Assessment

Prospective users and institutional partners may proceed with normal website interaction; formal commercial engagement should include the routine independent entity verification described above.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of odishatv.in.

- The request stayed on odishatv.in. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by awsdns-30.org, across 4 name servers. NOTED
- The registration is paid up to 2028-05-19. CLEAR
- The earliest public archive of this site is from 2010-05-14. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about odishatv.in at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a

legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
