

Is okfurniture.co.za legit? TrustSniffer's high-trust assessment: 90/100

okfurniture.co.za

Verdict

90

OUT OF 100

HIGH TRUST

okfurniture.co.za appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 75%.

What this site appears to be

OK Furniture ecommerce homepage/catalog with product listings, payment and delivery information, store locator, and customer support contacts. Appears to be a normal retail site with financing and lay-by options; no obvious phishing or investment-yield claims.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2001.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

OK Furniture is an online retail storefront presenting furniture, appliances, electronics, and household goods for sale, with associated delivery, customer-support, financing, and lay-by services. Its apparent business model is conventional consumer e-commerce, monetized through product sales and related payment arrangements.

Scam/Impersonation Risk

No contradictions were observed: the reviewed pages show no phishing, impersonation, malicious-content, or investment-related indicators, and the external reputation checks returned no malicious or suspicious detections. The presence of ordinary sign-in and checkout functionality is consistent with the stated retail model. Automated interaction produced some non-whitelisted network activity and console errors, but these were not accompanied by cloaking, hidden forms, wallet activity, credential exfiltration, or content-level fraud signals; they are therefore treated as limited technical noise rather than evidence of impersonation. The site’s historical record also shows continuity rather than suspicious repurposing.

EVIDENCE

- The homepage presents a normal “OK Furniture” retail catalogue with product navigation, store-finder functionality, customer-care numbers, account access, cart, and checkout.
- The homepage’s behavioral testing completed 2 successful runs; it recorded 4 non-whitelisted network events and 8 console errors, with 0 wallet-connect, wallet-drainer, clipboard-hijacking, hidden-form, or cloaking events.
- The domain was registered in 1999 and is approximately 27 years old; the historical record contains 425 snapshots spanning 2001–2026 across 26 tracked years.
- External screening recorded 0 malicious detections, 0 suspicious detections, 0 abuse reports, and a traffic rank of 83595.

Regulatory Verification Notes

Available evidence is consistent with an established, apparently legitimate retail website, but the real-world operator identity is not independently verified. Technical registration data and the site’s transport certificate identify Shoprite Checkers (Pty) Ltd, while the domain is registered through Lexsynergy Limited; these are positive consistency signals, not conclusive proof of current operation or corporate control. The reviewed content does not state a licensing authority or license number. That is a regulatory-disclosure gap requiring

verification, particularly because the site presents financing or credit-related options, although it is not by itself evidence of a scam. No matching third-party broker warning was identified.

EVIDENCE

- The domain registration record lists Shoprite Checkers (Pty) Ltd and Lexsynergy Limited as registrar.
- The site is hosted on AS396982, Google LLC's Google Cloud Platform; its TLS certificate is OV-validated, issued by Thawte TLS RSA CA G1 for Shoprite Checkers (Pty) Ltd, and valid until 2026-09-21.
- The homepage and customer-care content describe retail services and financing-related options but provide no displayed licensing authority or license number in the reviewed material.
- External reputation checks found no blacklist, phishing, or malicious-content result.

What to Verify Next

Before credential or payment interactions, an organization should independently confirm that the merchant identity shown in the site's legal, contact, and customer-care material corresponds to the intended retailer. Any applicable consumer-credit or financing permissions should be checked against the relevant official registry, and the stated returns, delivery, lay-by, and payment-protection terms should be reviewed before a transaction. Contact details should also be validated through an independently sourced official channel rather than relying solely on information reached through the website.

EVIDENCE

- The homepage provides "Contact Us," customer-care numbers, store-locator functionality, and account and checkout entry points.
- The site content identifies delivery, returns, credit, and lay-by as material parts of the customer journey.
- The reviewed pages contain no displayed license number or licensing authority to use as a direct regulatory reference.

Summary Verdict

The overall posture is high trust and low risk, with evidence consistent with an established, apparently legitimate consumer-retail website. No scam, phishing, impersonation, or other contradictory signal was observed, while operator identity remains qualified rather than independently verified.

Infrastructure Integrity

The site resolves to Google Cloud Platform infrastructure operated by Google LLC in the United States, with a single identified hosting address and no detected CDN layer. Google Cloud hosting and the identified network allocation provide a stable infrastructure signal, but hosting arrangements alone do not establish merchant legitimacy.

EVIDENCE

- Served from AS396982, Google Cloud Platform — Google LLC, US.
- Infrastructure resolution identified 1 unique IP, 0 edge IPs, and 1 likely origin IP.
- The site's transport encryption uses an OV certificate issued by Thawte TLS RSA CA G1, valid to 2026-09-21.

Closing Assessment

Ordinary browsing and standard retail use are proportionate to the current assessment; independent checks of merchant identity, applicable financing permissions, contractual terms, and payment protections should precede credential submission or material payment commitments.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of okfurniture.co.za.

- The request stayed on okfurniture.co.za. It was not redirected to another domain. CLEAR
- Registration is published under Lexsynergy Limited. CLEAR
- DNS for this domain is served by awsdns-38.org, across 4 name servers. NOTED
- The registration is paid up to 2027-08-18. NOTED
- The earliest public archive of this site is from 2001-03-12. CLEAR
- It is hosted on GOOGLE-CLOUD-PLATFORM, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about okfurniture.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
