Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2015.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

ONLOAN is a UK-addressed online print-on-demand retailer offering customized apparel, mugs, gifts, and home products through a conventional consumer ecommerce storefront with product catalogs, pricing, customer support, policies, and account access.

Scam/Impersonation Risk

No contradictions were observed. The homepage presents a coherent retail model, ordinary product purchasing, customer-service functions, and a standard login rather than phishing, financial manipulation, or brand-impersonation mechanics. External reputation checks found no malicious or suspicious classification, and no broker identity match was identified.

- Homepage: coherent ecommerce catalog, pricing, cart functionality, order tracking, and customer login.
- Page behavior: no cloaking, wallet-drainer activity, clipboard hijacking, hidden forms, or suspicious inline scripts.
- External reputation: zero malicious and zero suspicious detections; no blacklist hit and zero abuse reports.

Regulatory Verification Notes

The site appears to operate as ordinary retail ecommerce and does not claim a financial or other regulated license. Its UK address, customer policies, FAQs, and support information provide substantive commercial context; any missing formal corporate or licensing details are transparency items for routine verification, not evidence of deception. The established domain history, reputable registrar, clean reputation, and valid transport encryption support the site's legitimacy.

- Domain registration: recorded 2018-09-18; authoritative domain age 10.962 years.
- Web archive: 953 snapshots from 2015-08-15 through 2026-05-16, spanning 12 tracked years.
- Hosting and TLS: served on AS13335 (Cloudflare); certificate issued by WE1, DV validation, valid to 2026-09-14.
- Registration provider: Dynadot LLC.

What to Verify Next

Before a higher-value purchase, confirm that the business details, returns terms, delivery expectations, and customer-support channels remain consistent across the relevant site pages and retain normal transaction

records. Where formal corporate information is required for procurement, confirm it through the applicable UK registry.

- Contact and customer-service pages: stated support information and UK address are available for comparison.
- Policies and FAQ pages: shipping, returns, and service terms are presented for review.
- Storefront: product prices and ordering mechanics are displayed before purchase.

Summary Verdict

ONLOAN is a legitimate, established, and trustworthy ecommerce website with a consistent retail purpose and no observed scam or impersonation contradictions. Normal interaction, including account login and standard purchasing, is appropriate.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, which reduces direct exposure of the service and provides a meaningful defensive control. This protection is mitigating evidence only, but the observed infrastructure is consistent with a functioning, professionally operated web service.

Closing Assessment

Standard browsing, account use, and ordinary ecommerce transactions are appropriate, subject to normal consumer purchasing practices and review of the site's stated terms.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of onloan.co.

- The request stayed on onloan.co. It was not redirected to another domain. CLEAR

About this assessment

A trust score summarises the evidence TrustSniffer could collect about onloan.co at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
