Full analysis

Overview

This website is a Korean-language online marketplace presenting food, agricultural and seafood products, kitchen and household goods, electronics, discounts, free shipping, shopping-cart functions, and promotional events for ordinary retail transactions.

Scam/Impersonation Risk

No contradictions, impersonation indicators, phishing signals, or confirmed malicious reputation findings were observed. The homepage's concrete retail presentation—priced physical goods, discount percentages, shipping offers, and cart interactions—forms a coherent consumer-commerce model rather than a deceptive financial or credential-harvesting proposition.

- Homepage: Korean product listings show prices, discounts, free-shipping labels, promotions, and cart functionality.
- Behavioral testing: no hidden forms, external password submissions, cloaking, wallet activity, or suspicious inline scripts were detected.
- Domain history: registered 2016-11-28; approximately 9.68 years old.
- Archive history: 108 snapshots spanning 2017–2026, covering 10 tracked years.

Regulatory Verification Notes

The site presents as a retail marketplace rather than a regulated financial service. No specific license claim or license number is evidenced; this is a limited disclosure point for confirming the operator's commercial and consumer-protection arrangements, not evidence of deception. The registered owner is identified as e-Xanadu Co., Ltd., and the available external reputation checks were clean, while no broker-dataset match was found.

- Registration record: registrar Dotname Korea Corp; owner listed as e-Xanadu Co., Ltd.; expiration 2027-11-28.
- Hosting: served from AS38107, CDNETWORKS-AS-KR-KR (CDNetworks, KR).
- Transport encryption: GlobalSign GCC R6 AlphaSSL CA 2025, DV validation, valid through 2027-03-13.
- External reputation: 0 malicious detections, 0 suspicious detections, and no external blacklist flag.

What to Verify Next

For higher-value orders, confirm the seller identity, refund and delivery terms, and available payment protections through the site's customer-service and legal information before completing the transaction. Any applicable commercial registration or consumer-protection status should be checked against the relevant Korean registry.

- Homepage: identifies a multi-category retail marketplace with product, pricing, promotion, and shipping information.

- Registration record: identifies e-Xanadu Co., Ltd. as the domain owner.
- Customer interaction: login, cart, and customer-service entry points are present without detected sensitive-form or untrusted-destination indicators.

Summary Verdict

The website is a legitimate, established, and trustworthy online retail marketplace. The evidence supports normal interaction, including account login, account actions, and standard purchasing, with no observed indicators of scam or impersonation.

Infrastructure Integrity

The hosting layer is identified as CDNetworks on AS38107, with a valid GlobalSign DV certificate. No confirmed CDN or WAF protection was established in the supplied infrastructure evidence, so infrastructure should be treated as a technical control context rather than proof of legitimacy.

Closing Assessment

Normal account use and routine purchases are appropriate, with ordinary transaction safeguards applied to unusually valuable orders.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about onnuri-mall.co.kr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
