Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2012.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is a Chinese-language official OPPO ecommerce storefront presenting OPPO and OnePlus smartphones, tablets, wearables, audio products, accessories, promotions, warranty services, returns, and customer support for direct consumer sales.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand-impersonation signals, or malicious reputation findings were observed. The storefront presents a coherent consumer-electronics business model, with ordinary registration and shopping functions, and its sustained historical continuity supports an established identity rather than a recently created or repurposed operation.

- The homepage identifies OPPO and OnePlus products, customer service, warranty coverage, returns, and official service centers.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.
- The domain was registered in 2012 and is approximately 14.2 years old.
- The site has 809 archive snapshots spanning 2012–2026, covering 15 years.

Regulatory Verification Notes

The site provides recognizable legal and consumer-service disclosures, including an ICP filing, filing主体 number, public-security filing, privacy policy, user agreement, intellectual-property information, warranty, and returns terms. No sector-specific financial license is presented, which is consistent with the stated direct-sales ecommerce model; this is a documentation point for procurement review rather than an indication of deceptive activity. The certificate identity and registration records are materially consistent with the presented corporate storefront.

- The homepage displays ICP filing number 粤ICP备08130115号 and filing主体编号 44202420000015.
- The transport certificate is OV-validated, issued by GeoTrust G2 TLS CN RSA4096 SHA256 2022 CA1, and valid through 2027-01-14.
- The certificate subject organization is 深圳市欢太科技有限公司.
- The domain is registered through 阿里云计算有限公司 (万网) and expires on 2030-05-24.

What to Verify Next

For a formal enterprise or procurement engagement, confirm the contracting seller, applicable consumer-commerce obligations, and order-specific warranty and return terms through the site's legal and checkout documentation. Standard account login and purchasing may proceed through the site's normal authenticated flows.

- The homepage links to the privacy policy, user agreement, qualifications and licenses, and intellectual-property information.
- The storefront presents customer-service access, warranty coverage, official exchange protection, and return provisions.
- The site identifies more than 900 official service centers as part of its after-sales support presentation.

Summary Verdict

The site presents as a legitimate, established, high-trust commercial entity with strong identity continuity, coherent business purpose, clean reputation results, and no observed impersonation or phishing contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves directly to infrastructure hosted by CHINANET-IDC-BJ-AP under AS23724 in China, with no detected CDN or WAF layer and ten likely origin addresses. This is a conventional hosting posture rather than a deception indicator; the valid OV certificate provides transport protection, while the absence of intermediary edge infrastructure means the hosting architecture itself offers limited concealment or mitigation.

Closing Assessment

Proceed with normal browsing, login, account activity, and standard purchases, subject to ordinary transaction and procurement controls.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of opposhop.cn.

- The request stayed on opposhop.cn. It was not redirected to another domain. CLEAR
- Registration is published under 阿里云计算有限公司（万网）. CLEAR
- DNS for this domain is served by dnsv5.com, across 2 name servers. NOTED
- The registration is paid up to 2030-05-24. CLEAR
- The earliest public archive of this site is from 2012-10-19. CLEAR
- It is hosted on CHINANET-IDC-BJ-AP, from a server in CN. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about opposhop.cn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
