Full analysis

Security Alert

Fortinet flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Óptica Taboada is an ecommerce storefront for sunglasses and prescription frames, presenting product listings, installment promotions, factory-warranty messaging, branch information, contact facilities, account login, and conventional online-shopping functions for a regional optical retailer.

Scam/Impersonation Risk

The site presents a coherent retail storefront and no conflicting legal identities or page-level brand-impersonation indicators were identified. Nevertheless, the domain has a **confirmed blacklist** status supported by multiple external threat detections, including six malicious and one suspicious classifications; this is the decisive adverse signal. The homepage also exposes an account-login function, while behavioral testing detected hidden forms in both runs and substantial DOM changes after interaction. These findings create material risk for credential or payment activity despite the otherwise ordinary ecommerce presentation.

EVIDENCE

- Homepage: eyewear catalog, account-login form, shopping-cart functions, and conventional retail navigation are present.
- Behavioral observation: hidden forms were detected in 2 of 2 runs, with password-form activity recorded.
- External reputation evidence: 6 malicious and 1 suspicious detections were recorded; a confirmed blacklist hit is present.

Regulatory Verification Notes

The About, Contact, FAQ, and branch-related pages support an apparent optical-retail identity, including the site's claim of a business history founded in 1939. That identity is not independently verified by the available evidence. The site does not present a regulatory license or registration number; for a retail optical business, the applicable registration and consumer-protection requirements should therefore be established independently rather than inferred from the site's presentation. A separate broker-reputation dataset produced no match, but that result is contextual only and does not establish licensing or legality.

EVIDENCE

- Domain registration: created 2021-06-11T10:15:53Z, approximately 5.19 years old, with Dattatec Corp listed as registrar and expiration on 2027-06-11T10:15:53Z.
- Hosting: served from AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- Transport security: TLS certificate issued by WE1, validation level DV, valid to 2026-10-28T15:13:21+00:00.
- About and Contact pages: present business-history, branch, and contact-oriented content, but no license or registration number is identified.

What to Verify Next

Before any sensitive interaction, an independent party should confirm that the business entity behind the storefront corresponds to the named optical retailer and that the listed branches and contact channels are genuine. Any applicable retail, optical-service, consumer-credit, or payment obligations should be checked with the relevant official registry. Payment protections, warranty terms, and fulfilment conditions should also be confirmed through the FAQ and checkout process before a transaction.

EVIDENCE

- About page: contains the site's historical business-identity claim and should be reconciled with an independent business record.
- Contact and branch pages: provide identity anchors suitable for offline confirmation.
- FAQ and checkout pages: contain the operational terms that should be reviewed before purchase.

Summary Verdict

The overall posture is critical, with sensitive-interaction risk overriding the site's otherwise plausible retail presentation. The available evidence does not support treating the domain as trustworthy for account,

credential, or financial activity.

Infrastructure Integrity

Cloudflare provides the site's CDN and WAF protection, and all observed addresses are Cloudflare edge servers on AS13335; the origin server IP was not observable in this analysis. This reduces direct exposure of the hosting environment but is only a mitigating infrastructure characteristic and does not offset the external reputation findings.

Closing Assessment

Pending independent resolution of the adverse reputation findings and confirmation of the operating entity, activity should remain limited to passive viewing, with no credentials, payment details, or account access submitted.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about opticataboada.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
