

Is orionschools.org safe? TrustSniffer's low-trust assessment: 40/100

orionschools.org

Verdict

40

OUT OF 100

LOW TRUST

orionschools.org is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Public-facing website for Orion International Academy (Ontario, CA). Contains contact details, location, program descriptions, tuition and admissions information, news and student spotlights, and calls to book campus tours. No evident credential-harvesting forms or high-risk financial solicitations in the captured content.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://orionschools.org/>

What orionschools.org served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This website presents Orion International Academy as a private K–12 school in Ontario, California, offering academic programs, AP courses, extracurricular activities, admissions services, tuition-based enrollment, donations, and campus-tour bookings.

Scam/Impersonation Risk

The site's captured content is consistent with an educational institution and contains no evident credential-harvesting form, login mechanism, cryptocurrency solicitation, or other high-risk financial feature. However, this benign presentation is outweighed by a confirmed blacklist status and malicious detections from external reputation assessment, creating a material risk for sensitive interaction. The observed behavior also included non-whitelisted external posts, although no cloaking, hidden forms, wallet activity, or clipboard manipulation was detected. No conflicting legal-entity names, brand impersonation, or phishing indicators were identified within the supplied page content; the principal concern is therefore the corroborated external threat signal rather than an observed identity contradiction.

EVIDENCE

- The homepage identifies Orion International Academy and presents school programs, admissions, tuition, donations, and contact information; page analysis found no sensitive forms or phishing indicators.
- External reputation assessment recorded 3 malicious detections and a blacklist hit corroborated by two sources.
- Domain registration evidence records creation on 2013-02-27 and an age of 13.48 years.
- Archive records show 67 snapshots spanning 2013–2026, with 14 years tracked.

Regulatory Verification Notes

The site publishes an apparent school business model involving tuition, enrollment fees, donations, camps, and related educational services. The supplied material does not show a claimed license, registration number, or regulatory authority, and the on-page disclosure state is unclear; this is a verification gap rather than independent proof of fraud. The apparent institutional identity is supported by consistent school-focused content and linked social channels, but independent operator identity remains unverified. The domain is long-established and registered through GoDaddy.com, LLC, while its transport security uses a valid domain-validated certificate; these are positive technical and continuity indicators but do not override the external reputation concern or establish regulatory standing.

EVIDENCE

- The admissions, tuition, payment, and contact sections describe enrollment and school-service functions without displaying a license or registration number in the supplied content.
- The domain registrar is GoDaddy.com, LLC; creation date is 2013-02-27T23:55:10Z and expiration date is 2027-02-27T23:55:10Z.
- TLS is issued by WE1 at DV validation level and is valid to 2026-10-05.
- The homepage links Facebook, Instagram, and YouTube accounts associated with the apparent school identity.

What to Verify Next

Before any sensitive interaction, an institution should independently confirm that Orion International Academy is the intended school, that its campus and admissions contacts are authentic, and that any payment destination is controlled by the school rather than an intermediary. Licensing or educational registration should be checked with the relevant California authority, and contact channels should be validated through an independently obtained source rather than relying solely on the website. Any account, payment, or document-submission workflow should be reviewed for destination, authorization, and refund terms before use.

EVIDENCE

- The homepage provides a campus location, telephone contact, admissions information, and tour-booking calls to action that can be cross-checked independently.
- The admissions and payment sections indicate that enrollment-related transactions may occur through the site.
- The supplied analysis found no captured sensitive form, so any later payment or document workflow should be assessed separately at the point of interaction.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site appears educational in purpose and has several ordinary continuity and content-quality indicators, but the corroborated external threat findings create a decisive contradiction that prevents a positive trust determination.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, with the observed edge service hosted through CLOUDFLARESPECTRUM – Cloudflare London, LLC, US, on AS209242; the origin server was not observable in this analysis. This protection reduces direct exposure of the underlying service and is a mitigating control, but it is not evidence that the operator or content is legitimate.

EVIDENCE

- Hosted through AS209242, identified as CLOUDFLARESPECTRUM – Cloudflare London, LLC, US.
- Observed edge IP: 160.153.0.32; observed IP count: 1; likely origin IP count: 0.
- CDN/WAF vendor detected: Cloudflare.

Closing Assessment

Sensitive actions should remain restricted until the school's identity, official contact routes, regulatory standing, and payment arrangements have been independently confirmed; read-only browsing is the proportionate interim posture.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Analysis engine signal:direct_threat

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

Identity verification

Status	LIKELY
--------	--------

Identity score	79/100
----------------	--------

Identity verification confidence	78%
----------------------------------	-----

- Trusted social count=3

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of orionschools.org.

- The request stayed on orionschools.org. It was not redirected to another domain. [CLEAR](#)
- Registration is published under GoDaddy.com, LLC. [CLEAR](#)
- DNS for this domain is served by domaincontrol.com, across 2 name servers. [NOTED](#)
- The registration is paid up to 2027-02-27. [NOTED](#)
- The earliest public archive of this site is from 2013-08-17. [CLEAR](#)
- It is hosted on CLOUDFLARESPECTRUM, from a server in US. [NOTED](#)

About this assessment

A trust score summarises the evidence TrustSniffer could collect about orionschools.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
