

Is otvfoco.com.br legit? TrustSniffer's high-trust assessment: 90/100

otvfoco.com.br

Verdict

90

OUT OF 100

HIGH TRUST

otvfoco.com.br appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-10 by automated analysis. Classification confidence 75%.

What this site appears to be

Portuguese-language entertainment and TV news site (TV Foco) publishing articles on celebrities, novelas, beauty tips, sports and social benefit news. Appears to be a typical editorial portal using third-party advertising and consent management.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Full analysis

Overview

TV Foco is a Portuguese-language online news and entertainment portal presenting television coverage, celebrity and novela reporting, beauty advice, football updates, and social-benefit news, with an apparent business model based on editorial publishing, advertising, audience-consent mechanisms, and potentially sponsored or affiliate content.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent editorial identity rather than an impersonation of a financial, government, or consumer brand, and the available external reputation checks identified no malicious, suspicious, phishing, or blacklist indicators. Automated interaction did identify some non-whitelisted external requests, external posts, and console errors; however, these occurred alongside ordinary advertising and consent-management behavior, with no hidden forms, password submissions, wallet activity, clipboard manipulation, or cloaking detected. Missing structured metadata and page-level SEO elements are editorial-quality limitations, not evidence of impersonation or fraud. The long-running domain and consistent historical presence further support an established-site assessment, while the real-world operator remains independently unverified.

EVIDENCE

- The homepage identifies TV Foco and contains substantial Portuguese-language coverage of television, celebrities, novelas, beauty, football, and INSS-related news.
- The domain was registered on 2012-12-17 and is approximately 13.65 years old.
- The web archive records 5,000 snapshots from 2015-05-26 through 2025-02-09, spanning 11 tracked years.
- The homepage interaction analysis recorded no login form, sensitive form, wallet connection, cloaking, or clipboard-hijacking behavior.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate informational publisher, not a site presenting a regulated financial service. The material reviewed does not independently verify the real-world operator identity, and no licensing claim or registration number is presented; for this type of editorial portal, that is a transparency item to clarify rather than evidence of a scam. The site's long registration continuity, sustained archival activity, clean external reputation, valid transport encryption, and identifiable mainstream hosting

support its high-trust posture. The certificate is domain-validated, so it confirms encrypted transport rather than legal-entity identity.

EVIDENCE

- The site is served from AS13335, CLOUDFLARENET — Cloudflare, Inc., US.
- The site's TLS certificate was issued by WE1 at DV validation level and is valid until 2026-10-05T19:22:19+00:00.
- The homepage uses third-party advertising and consent-management mechanisms consistent with an ad-supported editorial business model.
- No matching broker or financial-service profile was identified in the available third-party contextual data.

What to Verify Next

Before any credential or payment interaction beyond ordinary content access, an independent source should confirm the operator's legal identity and official contact channels. If the site introduces subscriptions, commerce, donations, or other payment flows, the applicable terms, refund or cancellation conditions, and payment-protection arrangements should be reviewed independently; any regulated offering should also be checked against the relevant authority's register.

EVIDENCE

- The available identity-verification evidence does not independently connect the website to a confirmed real-world operator.
- The observed homepage is an informational publishing interface, so any later account, subscription, or payment workflow should be assessed as a separate interaction surface.

Summary Verdict

The available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture and no observed scam or impersonation contradictions. Its content, historical continuity, technical operation, and external reputation converge on a normal editorial publishing service, while operator identity remains unverified rather than proven.

Infrastructure Integrity

Cloudflare CDN and WAF protection are present, with all observed addresses belonging to Cloudflare edge infrastructure and no origin candidate exposed in the observed resolution. This reduces direct origin exposure and is a mitigating infrastructure signal, but it does not independently establish the site's legitimacy or operator identity.

Closing Assessment

Ordinary content access is proportionate to the assessed posture; for any future credential or payment interaction, independent checks of operator identity, applicable terms, and payment protections should be completed first.

Written analysis generated 2026-08-10 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of otvfoco.com.br.

- The request stayed on otvfoco.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-12-17. CLEAR
- The earliest public archive of this site is from 2015-05-26. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about otvfoco.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
