

Is ovikonimagecity.com safe? TrustSniffer's moderate-trust assessment: 70/100

ovikonimagecity.com

Verdict

70

OUT OF 100

MODERATE TRUST

ovikonimagecity.com is moderately trusted.

Most signals looked ordinary, and some evidence was missing. Read the checks below before you pay or hand over personal details.

Not Scam

Governance Risk

Dynamic Interaction Caution

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Ovikon ImageCity Ltd is presented as a Nigerian creative company combining cinematic video production and AI solutions, offering services and training. Contact email and phone are provided; site reads like a corporate brochure.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

What ovikonimagecity.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Not Scam.
- Domain age: less than 1 year (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Ovikon ImageCity Ltd is presented as a Nigerian creative agency that combines cinematic video production, branding, AI tools, automation solutions, and training services. Its homepage describes a business-to-business model focused on helping organisations communicate, automate work, and grow through visual content and intelligent systems, with contact and newsletter forms supporting client and audience engagement.

Scam/Impersonation Risk

No phishing, impersonation, malware, or other direct scam contradictions were observed. The homepage consistently presents the same corporate identity and service model, and the available contact details, business wording, and service descriptions are coherent with a creative-agency brochure. Dynamic testing did identify external network activity and non-whitelisted outbound posts, but no login form, password-external form, wallet connection, clipboard manipulation, cloaking, or sensitive form was detected; this supports interaction awareness rather than a finding of active fraud. The site's historical record also shows continuity in the same broad business category, with no detected repurposing.

EVIDENCE

- The homepage identifies “Ovikon ImageCity Ltd” as a Nigerian creative company offering AI solutions, cinematic video, branding, and training.
- The domain registration record shows a creation date of 2025-11-18 and an age of approximately 0.75 years; historical records show the domain first seen on 2018-08-04 and last seen on 2023-09-28, with 12 snapshots across 6 tracked years.
- The homepage behavior assessment recorded no login form, hidden form, password-external form, wallet activity, clipboard hijacking, or cloaking.

Regulatory Verification Notes

The site presents a named company and a Nigerian operating context, but the available evidence does not independently verify the real-world operator behind that presentation. No regulatory license, license number, or regulated-service authorization is claimed on the reviewed business pages; for an agency selling creative, AI, and training services, this is primarily a disclosure and contracting matter rather than evidence of a scam. The contact page provides an email address and Nigerian telephone number, while the site contains two ordinary lead-capture forms and no sensitive-data form. External reputation evidence is limited in coverage but contains no confirmed malicious or blacklist result, and no matching broker-reputation entry was identified. The low page-authority result is contextual only and does not establish illegitimacy.

EVIDENCE

- The homepage names Ovikon ImageCity Ltd and describes its service lines as Adaptive AI Labs, VeCharge video production, and AI and multimedia training.
- The contact page publishes a telephone contact and provides contact and newsletter forms without a password or payment field.
- The hosting artifact identifies AS47583, AS-HOSTINGER – Hostinger International Limited, CY; the domain registrar is HOSTINGER operations, UAB.
- The site's TLS certificate is DV-validated, issued by YE2, and valid until 2026-11-17T06:46:56+00:00.

What to Verify Next

Before a sensitive or high-value engagement, an organisation should independently confirm the company's legal registration and authorised contracting entity through the relevant Nigerian corporate registry. Procurement should obtain a written statement of services, pricing, ownership of produced content, support obligations, and refund or termination terms, and should match invoices and payment instructions to the independently confirmed entity. Contact channels should also be confirmed through an independent route before transmitting business-sensitive material, and any AI product or training subscription should be tested with a limited engagement before broader deployment.

EVIDENCE

- The homepage describes client services, AI tools, multimedia production, and training as the apparent revenue model.
- The contact page provides ordinary lead-capture and newsletter forms rather than account or payment workflows.
- Behavioral testing completed 2 successful runs and recorded 8 external XHR requests, 2 external posts, and a maximum external-activity ratio of 76.7%.
- The reviewed page has no structured data, canonical declaration, or meta description, so independent entity confirmation should not rely solely on search presentation.

Summary Verdict

The website has a **moderate-trust posture** and is consistent with an operating creative-services business rather than an observed scam or impersonation site. Its content and technical operation support apparent legitimacy, but the available evidence does not independently prove the operator's identity; confidence is therefore appropriate without treating the site's self-description as conclusive.

Infrastructure Integrity

The site resolves directly to four likely origin addresses, with no CDN detected and no edge-IP layer identified. This arrangement is technically ordinary for a smaller hosted business but provides less intermediary shielding than a CDN/WAF deployment; the infrastructure fragmentation indicator should be treated as a limited technical consideration, not as evidence of malicious activity.

Closing Assessment

The proportionate course is to proceed for ordinary business evaluation while completing independent entity, contracting, and payment checks before any sensitive disclosure, substantial commitment, or high-value transaction.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, behaviour in a sandbox.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Dynamic Interaction Caution

- Most of what the page loaded came from other domains rather than from this one.

Behaviour in a sandbox rule:BEHAV_EXTERNAL_RATIO_HIGH

- The page sent data to a destination TrustSniffer does not recognise.

Behaviour in a sandbox rule:BEHAV_NONWHITELISTED_POSTS

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of ovikonimagecity.com.

- The request stayed on ovikonimagecity.com. It was not redirected to another domain. CLEAR
- Registration is published under HOSTINGER operations, UAB. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2026-11-18. NOTED
- The earliest public archive of this site is from 2018-08-04. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about ovikonimagecity.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
