What p-bandai.jp served when TrustSniffer captured it on 2026-08-17. The page may look different now.

Key findings

- Automated classification: Not Scam.
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

This website is a Premium Bandai regional landing page presenting international shipping and directing visitors to region-specific storefronts and partner marketplaces to purchase official merchandise, including Gundam models and other character products.

Scam/Impersonation Risk

No contradictions were observed: the supplied content contains no phishing, brand-impersonation, blacklist, or malicious-content indicators. The site's apparent commercial purpose is coherent with its presentation of Premium Bandai merchandise, regional purchasing routes, and marketplace destinations. Behavioral collection recorded substantial external activity, but this is reasonably attributable to regional storefront and marketplace routing; the same observation found no hidden forms, password submissions, wallet connections, clipboard activity, or cloaking. One contact-channel integrity anomaly appears in the supplied page findings:

"info@example.come" is a deliverability-breaking typo or possible typosquat and should be treated as a minor contact artifact rather than evidence of a scam.

EVIDENCE

- The homepage is classified as a low-risk ecommerce regional landing page and contains no reported red flags or suspected brand impersonation.
- The captured page had no login form, hidden form, sensitive form, password submission, wallet connection, wallet-drainer behavior, or clipboard manipulation.
- External reputation checks recorded zero malicious detections, zero suspicious detections, and no blacklist hit for the domain; its traffic rank was 8157 and it was within the top 1 million.

Regulatory Verification Notes

The available evidence is consistent with an established, apparently legitimate commercial website, but the real-world operator identity remains independently unverified. The landing page displays the Premium Bandai presentation and the copyright notice “©BANDAI SPIRITS 2009”; these are on-site claims and do not independently establish the legal entity operating every regional storefront or marketplace destination. No licensing authority or license number is disclosed in the supplied landing-page content. For an ordinary merchandise business, this is a transparency and merchant-verification point rather than evidence of impersonation or fraud. No match was returned in the available third-party broker-reputation context.

EVIDENCE

- The homepage identifies the service as Premium Bandai international shipping and displays “©BANDAI SPIRITS 2009.”
- The supplied landing-page content contains no licensing authority or license number.
- The available broker-reputation context returned no match.

What to Verify Next

Before credential or payment interactions, independently confirm that the selected regional storefront or marketplace is an official purchasing destination, review the applicable merchant identity, returns terms, shipping conditions, and payment-protection arrangements, and use independently sourced support channels rather than relying solely on contact details presented on the landing page. Where a regional activity requires licensing or consumer-registration disclosures, confirm those details with the relevant official registry.

EVIDENCE

- The captured page is a landing page with no login or sensitive payment form, so credential and payment decisions arise at onward destinations.
- The page presents multiple regional purchasing routes, making destination-specific merchant and payment checks relevant.
- The available analysis found no untrusted destination or hidden sensitive form in the captured interaction.

Summary Verdict

The overall posture is high trust and low risk, with evidence consistent with an established, apparently legitimate website and no observed scam or impersonation contradiction. The principal limitation is that the operator’s real-

world identity has not been independently verified, so the positive assessment should not be treated as proof of legal ownership.

Infrastructure Integrity

The site resolves through F5 Networks SARL infrastructure, with no CDN identified in the supplied network facts; this provides a stable, professionally operated hosting context but is only a mitigating technical signal, not proof of ownership. Transport encryption is supported by a valid Extended Validation certificate whose subject organization is BANDAI SPIRITS CO., LTD.

EVIDENCE

- Served from AS35280, F5 - F5 Networks SARL, FR; resolved IP address 159.60.154.249.
- TLS certificate issued by Cybertrust Japan SureServer EV CA G3, validation level EV, valid to 2027-03-15T14:59:00+00:00.
- The certificate subject organization is BANDAI SPIRITS CO., LTD.; the infrastructure record reports one unique IP and zero edge IPs.

Closing Assessment

Normal browsing and ordinary use are proportionate to the assessment, while independent merchant-identity, returns-policy, and payment-protection checks should be completed before submitting credentials or making a purchase.

Written analysis generated 2026-08-17 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of p-bandai.jp.

- The request stayed on p-bandai.jp. It was not redirected to another domain. CLEAR
- It is hosted on F5, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about p-bandai.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
