The page as captured

<https://p-edukul.org/>

What p-edukul.org served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet, Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

p-edukul.org presents itself as the corporate website of P-eduKUL Digiversity Pvt Ltd, a Maharashtra-based digital education company offering skill and vocational education, educational content, AI-supported learning, content licensing, training services, and institutional partnerships.

Scam/Impersonation Risk

Confirmed external threat detections and a blacklist designation create a serious risk for sensitive interaction with the site, despite the website presenting a coherent educational profile. The homepage and visible corporate content contain no observed login form, credential-collection mechanism, wallet connection, or other high-risk interaction, and the site's page-level material was assessed as informational and low-risk. Those benign characteristics do not offset the external security findings. No conflicting legal-entity names, direct brand impersonation, or phishing behavior were observed in the supplied page findings; the concern is instead the confirmed blacklist and malicious detections associated with the domain.

EVIDENCE

- External reputation telemetry recorded 15 malicious detections, with the domain also marked as externally blacklisted.
- Three major endpoint-security providers flagged the domain in the evaluated results.
- The homepage contains one enquiry/contact form and no observed login form, hidden form, password submission, wallet connection, or wallet-drainer behavior.

Regulatory Verification Notes

The About page identifies P-eduKUL Digiversity Pvt Ltd as a Maharashtra-based private limited company established in 2022, describes it as an authorized content partner of ADDA247, and states that it is startup-certified under India's Ministry of Skills and Entrepreneurship-related government framework. These are on-site representations rather than independently verified identity or regulatory evidence. The supplied material does not show a license number or specific education-sector authorization, and the operator's real-world identity remains unverified. The registration and historical signals provide context but do not resolve the external threat findings.

EVIDENCE

- Domain registration record: registered 2020-06-20T13:56:48Z, approximately 6.17 years old, through GoDaddy.com, LLC; expiry is 2027-06-20T13:56:48Z.
- Available archive coverage spans 2021-12-20T06:55:37Z to 2026-03-11T06:14:15Z, tracking six years with sparse continuity.
- The About page states that the company was established in 2022, operates from Maharashtra, and is an authorized content partner of ADDA247.
- The supplied pages do not display a license number or named licensing authority.

What to Verify Next

Before any sensitive engagement, an independent party should confirm the company's legal existence, the stated government startup certification, and the claimed ADDA247 partnership through authoritative records or independently sourced corporate contacts. Any proposed commercial arrangement should also be supported by a written contract, independently validated office details, and payment protections that permit dispute resolution. Credential or financial interactions should remain suspended unless the domain-level security findings are resolved by the relevant security and IT governance teams.

EVIDENCE

- About page: independently validate the stated company status, government certification, and partner relationship.
- Contact page: corroborate the published telephone numbers and office addresses through an offline or independently obtained channel.
- Enquiry form: confirm the data-handling and engagement terms before submitting business or personal information.

Summary Verdict

The site has a **critical sensitive-interaction risk posture**. Its educational presentation is internally coherent, but the confirmed external malicious detections and blacklist status materially outweigh the site’s benign visible behavior. The operator identity is not independently verified, so the website should not be treated as an established or trusted entity for sensitive use.

Infrastructure Integrity

The observed infrastructure is ordinary shared web hosting rather than evidence of a trusted operator, and infrastructure protections cannot mitigate the domain’s external reputation risk. The site was observed on DreamHost infrastructure in the United States, with a valid domain-validated TLS certificate issued by YR2; encryption confirms transport protection only and does not establish legitimacy.

EVIDENCE

- Hosted from AS26347, DREAMHOST-AS - New Dream Network, LLC, US, at 173.236.255.66.
- TLS certificate: issuer YR2, validation level DV, valid to 2026-10-08T00:41:24+00:00.

Closing Assessment

The appropriate posture is passive review only until independent identity, corporate, partnership, and security validation is complete; credentials, personal data, and financial information should not be submitted in the interim.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The public registration record for this domain is incomplete.

Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

Analysis engine signal:direct_threat

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of p-edukul.org.

- The request stayed on p-edukul.org. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dreamhost.com, across 2 name servers. NOTED
- The registration is paid up to 2027-06-20. NOTED
- The earliest public archive of this site is from 2021-12-20. CLEAR
- It is hosted on DREAMHOST-AS, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about p-edukul.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
