

Is paquetexpress.com.mx legit? TrustSniffer's high-trust assessment: 80/100

paquetexpress.com.mx

Verdict

80

OUT OF 100

HIGH TRUST

paquetexpress.com.mx appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-12 by automated analysis. Classification confidence 75%.

What this site appears to be

Official-looking logistics company website (Paquetexpress) offering shipment tracking, quotes, app downloads, contact numbers, office locations and job listings. Contains login for user accounts and shipment tracking input. No clear signs of phishing, crypto or high-risk financial activity.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Paquetexpress is a corporate logistics website presenting parcel, document, and freight-delivery services, with shipment tracking, shipping quotations, customer support, office information, mobile-app access, and employment opportunities; its apparent business model is to generate revenue from shipping fees, prepaid labels, and business logistics agreements.

Scam/Impersonation Risk

No contradictions were observed. The site's logistics purpose, corporate presentation, tracking and account functions, contact mechanisms, and service information form a coherent operating model, with no detected phishing, brand-impersonation, cryptocurrency, or other high-risk abuse indicators. The login form is visible, but the technical assessment found no hidden forms, no external password submission, no wallet activity, no cloaking, and no malicious or suspicious reputation detections. The site therefore presents as an apparently legitimate, established service, while the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage presents parcel, document, freight, international, tracking, customer-support, office, and employment content consistent with a logistics business.
- The site's interactive behavior recorded no hidden forms, no external password forms, no wallet-provider activity, and no cloaking.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, and no phishing-warning result for the domain.
- Domain registration: Registered 2001-05-29 (~25.22 years old).
- Web-archive history: 986 snapshots spanning 1999–2026 (28 years tracked).

Regulatory Verification Notes

The available evidence supports an established-site assessment, but it does not independently prove the operator's legal identity. The registration record names Impulsora de Transportes Mexicanos, S.A. de C.V. and identifies AKKY ONLINE SOLUTIONS, S.A. DE C.V. as registrar; those records are useful identity context rather than conclusive proof that the website is operated by that entity. The reviewed site content does not present a licensing claim or registration number. For a logistics provider, the regulatory significance of that omission depends on the services and jurisdiction involved, so it is a transparency and verification point rather than

evidence of a scam. The site's privacy notice and corporate information should be assessed alongside independently sourced company records and applicable transport requirements.

EVIDENCE

- Registration record: Owner listed as Impulsora de Transportes Mexicanos, S.A. de C.V.; registrar listed as AKKY ONLINE SOLUTIONS, S.A. DE C.V.
- The reviewed corporate and service content contains no stated license authority or license number.
- TLS certificate: Issued by GeoTrust TLS RSA CA G1, domain-validated (DV), valid to 2026-11-03.
- The homepage exposes links or references for About us, Privacy notice, Security, Sustainability, Partners, and Contact.

What to Verify Next

Before credential or payment interactions, independently match the business name and contact channels against authoritative company information, confirm that the relevant logistics services comply with applicable transport and consumer-protection requirements, and review the site's privacy, cancellation, refund, and payment-protection terms. Account access should use a unique password, and any payment request should be checked through an independently obtained contact route rather than relying solely on a message or page link.

EVIDENCE

- The homepage provides an About us section, Privacy notice, Contact function, office information, and customer-support access for cross-checking.
- The site provides account login and shipment-tracking functions, making credential hygiene and transaction-specific payment checks relevant.
- Shipping quotations and business agreements are presented as service interactions requiring confirmation of the contracting entity and applicable terms.

Summary Verdict

The overall posture is **high trust and low risk**, and the available evidence is consistent with an established, apparently legitimate logistics website. This conclusion does not independently verify the real-world operator identity, so legitimacy should be understood as evidence-consistent rather than proven.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, which provides a mitigating layer against direct exposure and common web attacks. The observed address was an Amazon-hosted edge address, and no origin candidate was identified in the infrastructure observation; this is an infrastructure characteristic, not proof of legitimacy.

EVIDENCE

- Served from AS16509 (Amazon.com, Inc., US).
- Cloudflare CDN/WAF detected; 1 edge IP observed and 0 likely origin IPs identified.

Closing Assessment

Normal browsing and ordinary service use are proportionate to the assessment; independent merchant-identity, service-term, and payment-protection checks should be completed before submitting credentials or making payments.

Written analysis generated 2026-08-12 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of paquetexpress.com.mx.

- The request stayed on paquetexpress.com.mx. It was not redirected to another domain. CLEAR
- Registration is published under AKKY ONLINE SOLUTIONS, S.A. DE C.V.. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-28. NOTED
- The earliest public archive of this site is from 1999-10-09. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about paquetexpress.com.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
