

Is pathikareps.com legit? TrustSniffer's high-trust assessment: 100/100

pathikareps.com

Verdict

100

OUT OF 100

HIGH TRUST

pathikareps.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 50%.

What this site appears to be

Informational corporate site for Pathika, a marketing and representation company tied to Minar Group, offering services such as sales & marketing, operations management, PR, digital marketing, event management, and travel-related representation. Includes address, phone numbers and contact form.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2019.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

A corporate website for Pathika, a marketing and representation agency serving travel and hospitality businesses. It presents sales and marketing, operations management, public relations, digital marketing, event management, consultancy, and travel-related representation services, with the apparent business model of earning service-contract, representation, event-management, and consultancy fees.

Scam/Impersonation Risk

No contradictions were observed across the supplied evidence: there are no phishing or impersonation indicators, no confirmed blacklist finding, no malicious detections in the evaluated external checks, and no suspicious form or wallet behavior. The site presents a coherent corporate-agency profile, identifies Pathika as a representation parallel of Minar Group, and names related ventures including Minar Travels, Wishcover, Vilasa Luxury, and Elbon Meetings. Its stated services and business mechanics are conventional B2B offerings rather than a payment, investment, cryptocurrency, or high-yield solicitation model. The available evidence is therefore consistent with an established, apparently legitimate website, although the real-world operator identity remains independently unverified.

EVIDENCE

- The homepage and services content describe sales and marketing, operations management, PR and media, digital marketing, product launches, and event management for travel and hospitality clients.
- The About Us and Team content identifies Pathika's relationship with Minar Group and names Harvinder Singh as Managing Director, alongside other executive personnel.
- Domain registration evidence records creation on 2018-06-21 and an age of 8.17 years.
- Historical records show 49 archive snapshots from 2019 through 2026, covering 8 years.

Regulatory Verification Notes

The available legal and identity content supports an apparent corporate presence but does not independently establish the operator's legal identity. The site provides an address, telephone numbers, a contact form, and team information, while the registration record identifies Harvinder Singh Duggal and marks the organization information as privacy-redacted; this is an administrative limitation rather than an identity contradiction. No license, registration number, or regulated-service claim is identified in the supplied pages. Given the stated marketing and representation business model, that absence is a transparency and verification point, not evidence of fraudulent conduct. External reputational context is favorable but not comprehensive because coverage was partial.

EVIDENCE

- The Contact page contains an address, telephone numbers, and a contact form; the form is classified as a standard contact form without sensitive-field behavior.
- The Team page names Harvinder Singh as Managing Director, while registration data records the registrant name as Harvinder Singh Duggal; the association is potentially corroborative but not independently verified.
- Hosting telemetry records AS14670 and WHG-USE1 - WHG Hosting Services Ltd, GB.
- The site's TLS certificate is issued by YR1, uses Domain Validation (DV), and is valid through 2026-10-12.

What to Verify Next

Before any credential or payment interaction, the prospective counterparty should independently corroborate the business identity and the stated relationship with Minar Group through corporate records or an offline business channel. Contracting parties should also confirm the applicable service terms, invoicing entity, cancellation provisions, and payment-protection arrangements directly with the counterparty rather than relying solely on the website. The contact details should be validated through an independent route before sensitive commercial documents or account credentials are exchanged.

EVIDENCE

- The About Us page provides the group-affiliation and business-description assertions that should be independently corroborated.
- The Contact page supplies the channels available for comparison against independently obtained business records.
- The services pages define the commercial scope against which any proposed engagement or invoice should be matched.

Summary Verdict

The site has a **high-trust, low-risk posture** based on converging content, behavioral, domain-continuity, transport-security, and reputation signals. It is best described as an established, apparently legitimate corporate website, while the operator’s real-world identity is not independently verified.

Infrastructure Integrity

The site resolves to one likely origin IP, with no CDN or WAF detected. Direct hosting on infrastructure associated with AS14670 and WHG Hosting Services Ltd does not itself establish legitimacy, but the resolved and technically coherent hosting posture provides a normal, observable delivery path without evidence of concealment or abusive infrastructure.

Closing Assessment

Ordinary business engagement may proceed with proportionate independent confirmation of the counterparty, commercial terms, and payment protections before credentials or funds are exchanged.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pathikareps.com.

- The request stayed on pathikareps.com. It was not redirected to another domain. CLEAR
- Registration is published under BigRock Solutions Ltd.. CLEAR
- DNS for this domain is served by texaserve.com, across 2 name servers. NOTED

- The registration is paid up to 2028-06-21. CLEAR
- The earliest public archive of this site is from 2019-02-13. CLEAR
- It is hosted on WHG-USE1, from a server in AE. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pathikareps.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
