- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2018.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

PayGo is an established Brazilian B2B payments provider presenting payment-processing, point-of-sale, online-payment, and related financial-services solutions for businesses.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent corporate identity, with no phishing, credential-harvesting, malicious-content, or deceptive financial-promise indicators. External reputation checks recorded no malicious or suspicious detections, and the site's published business purpose is consistent across its corporate presentation.

- The homepage is identified as a corporate landing page for PayGo and contains no login or sensitive-data form.
- Domain registration records show PayGo associated with PayGo Administradora de Meios de Pagamento Ltda; registered 2004-01-13 (~22.57 years old).
- Web archives record 1,036 snapshots spanning 2018–2026 (9 years tracked), with continuous historical activity.

Regulatory Verification Notes

PayGo describes payment capture, recurring payments, payment links, business accounts, credit, Pix, C6 Pay integration, developer APIs, and customer and partner portals. Its pages include contact information, FAQs, legal references, and LGPD material; however, no specific license or registration number is claimed in the supplied evidence. This is a regulatory-disclosure point for confirmation, not evidence of impersonation or fraud.

- The homepage identifies payment-processing, in-person, online, recurring-payment, and payment-link services.
- Legal and privacy references, including LGPD information, are presented within the site's page content.
- Hosted on AS13335 (Cloudflare); TLS certificate issued by WE1 (DV), valid to 2026-10-06.

What to Verify Next

Confirm any authorization applicable to the intended payment service through the relevant Brazilian regulatory or corporate registry, and independently validate the commercial onboarding and support channels before entering into material contractual arrangements.

- The homepage provides customer, partner, developer, and commercial-contact pathways.

- The site includes FAQ and legal-information content supporting ordinary due diligence.
- The displayed business model is corporate payment technology and related financial-services partnerships.

Summary Verdict

PayGo presents as a legitimate, established, and trustworthy business website with a coherent identity, clean reputation, mature operating footprint, and no observed contradiction signals. Normal interaction, including account login and standard use, is appropriate within the services presented.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, with observed edge IPs 104.18.43.73 and 172.64.144.183; the origin server was not observable in this analysis. This materially reduces direct exposure of the origin and is a mitigating infrastructure characteristic, though it is not independently proof of legitimacy.

Closing Assessment

Prospective business users may proceed with normal onboarding and account use, subject to ordinary commercial and regulatory due diligence appropriate to the planned relationship.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of paygo.com.br.

- The request stayed on paygo.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2032-01-13. CLEAR
- The earliest public archive of this site is from 2018-04-13. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about paygo.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
