Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2005.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The Payment24 website is a public-facing content site at payment24.co.za, presenting a homepage branded “Payment24 2026” and apparently intended to provide information about the Payment24 entity or service.

Scam/Impersonation Risk

No contradictions were observed. The site has a long, continuous domain and archival history, while external reputation checks found no malicious or suspicious detections, phishing indication, or blacklist result. Observed behavior was stable and benign, with no hidden forms, wallet-drainer activity, clipboard hijacking, cloaking, or suspicious scripts.

- Domain registration: 24 May 2005; age 21.2 years.
- Web archive: 261 snapshots spanning 2005–2026, tracked across 22 years.
- Homepage behavior: two successful runs, with no hidden forms or suspicious scripts detected.
- External reputation: zero malicious detections, zero suspicious detections, and no blacklist result.

Regulatory Verification Notes

The identity signals support an established entity: registration records associate the domain with Paradigm Group through GoDaddy.com, LLC, and the site uses valid transport encryption. The supplied evidence does not establish a specific financial license or regulatory authorization, so that point remains a routine verification matter rather than an indication of fraud. No adverse broker-reputation match was identified.

- Domain registrar: GoDaddy.com, LLC; registrant organization: Paradigm Group.
- Hosting: AS8075, Microsoft Corporation, US.
- TLS certificate: issued by YR1, domain-validated (DV), valid to 6 October 2026.
- Regulatory disclosure: the available website evidence does not provide a confirmed license or registration number.

What to Verify Next

For any regulated service or material transaction, match the legal entity and authorization details published by the site against the applicable regulator’s official registry. Confirm current support and contact channels through

an independently sourced corporate record before relying on them for consequential matters.

- Applicable regulator registry: verify the entity name and any authorization number against the official record.
- Corporate records: compare the site's stated identity with independently sourced registration information.
- Current website disclosures: confirm that legal, service, and contact information remain consistent.

Summary Verdict

Payment24.co.za presents as a legitimate, established, and trustworthy website with strong historical continuity, clean reputation signals, and no observed contradiction or abuse pattern. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by a CDN/WAF layer, with observed traffic served through Microsoft infrastructure at AS8075; the origin server was not observable. This provides a mitigating layer against direct origin exposure but is not, by itself, proof of legitimacy.

Closing Assessment

Normal website interaction is appropriate, with ordinary institutional due diligence retained for regulated or high-value activity.

Written analysis generated 2026-08-01 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNKNOWN
Identity score	50/100
Identity verification confidence	30%

- AI page analysis unavailable (page captured; identity not AI-verified)

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of payment24.co.za.

- The request stayed on payment24.co.za. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by domaincontrol.com, across 2 name servers. NOTED
- The registration is paid up to 2027-05-24. NOTED
- The earliest public archive of this site is from 2005-10-16. CLEAR
- It is hosted on MICROSOFT-CORP-MSN-AS-BLOCK, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about payment24.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
