Full analysis

Overview

PAYMO is a Russian payment-technology provider presenting online payment acceptance, payouts, transfers, loan repayments, payment splitting, business dashboards, APIs, SDKs, CMS modules, and related fintech integrations for organizations and merchants.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity signals were observed. The homepage presents a coherent B2B payment-services model, with ordinary organizational login and consultation functions rather than deceptive investment or cryptocurrency mechanisms. Independent reputation checks recorded zero malicious and zero suspicious detections, supporting a legitimate and established assessment.

EVIDENCE

- The homepage identifies PAYMO as a corporate payment-services platform and contains no detected phishing or impersonation indicators.
- The domain was registered on 2013-07-24 and is approximately 13.03 years old.
- Historical coverage records 225 archive snapshots across 14 years, from 2013-06-28 through 2026-06-07.
- Reputation checks recorded 0 malicious and 0 suspicious detections.

Regulatory Verification Notes

The site identifies ООО «ИПТ» and provides registration, address, privacy, consent, and security information. Its stated services include payment processing, payouts, transfers, APIs, SDKs, and financial-sector integrations; however, no specific license or registration number was established in the supplied evidence, so regulatory authorization remains a transparency item for independent confirmation. No adverse broker-reputation match was identified.

EVIDENCE

- The homepage and legal-information content identify ООО «ИПТ» and provide organizational details.
- The homepage describes payment-processing, payout, transfer, API, SDK, and CMS services for businesses.
- The site's hosting is identified as AS41722, MIRAN-AS - Miran Ltd., RU.
- TLS uses issuer YR2 with DV validation and is valid through 2026-09-12.

What to Verify Next

Confirm the applicable payment-services authorization and corporate registration directly with the relevant Russian registry, and independently confirm official support and onboarding channels before establishing a high-value commercial relationship.

EVIDENCE

- The site presents payment and payout services requiring regulatory-status confirmation.
- The homepage provides organizational identity and contact routes suitable for independent cross-checking.

Summary Verdict

PAYMO presents as a legitimate, established, trustworthy business website with a coherent corporate purpose and no observed contradiction-based indicators. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The website is protected by Cloudflare CDN/WAF infrastructure, and observed traffic resolved to CDN edge infrastructure rather than an exposed origin. This provides a meaningful mitigation against direct origin exposure, while remaining a protective technical control rather than proof of legitimacy.

Closing Assessment

Prospective customers may proceed with normal account and service interactions, subject to ordinary commercial and regulatory due diligence for payment providers.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about paymo.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
