Key findings

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- VirusTotal and Google Safe Browsing had no flags for this domain; its hosting IP carries AbuseIPDB reports below the confidence level TrustSniffer treats as a flag.

Full analysis

Overview

PayStore is a Brazilian B2B payment-technology platform attributed to Phoebus, presenting SmartPOS/POS applications, merchant services, developer tools, APIs, transaction monitoring, app distribution, and cloud-based SaaS infrastructure for acquirers, sub-acquirers, developers, and merchants.

Scam/Impersonation Risk

No contradictions were observed. The site presents a coherent corporate SaaS model, with no detected phishing, credential-harvesting, investment-return, cryptocurrency, or brand-impersonation indicators. Its sustained domain history and clean external reputation support an established identity rather than an opportunistic or deceptive operation.

- The homepage describes a professional B2B payment-technology platform and contains no sensitive forms or untrusted form destinations.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist or phishing hit.
- The domain was registered on 2017-10-06 and is approximately 8.83 years old; archival coverage contains 52 snapshots spanning 2018–2026 across 9 tracked years.

Regulatory Verification Notes

PayStore's presentation is consistent with enterprise payment software and SaaS services rather than consumer deposits or investment returns. The site attributes the service to Phoebus and links a privacy policy, but the supplied pages do not display a regulatory license or registration number; this is a transparency item for institutional due diligence, not evidence of fraud. The identified technical controls and established operating history provide additional legitimacy context.

- WHOIS records list Harley Carvalho Barroso as the registrant, with expiration on 2032-10-06.
- Hosting is provided through AS58182, Wix.com Ltd., IL.
- TLS uses issuer YR1 with DV validation and is valid through 2026-09-03.

What to Verify Next

Institutional users should confirm the relevant Brazilian corporate and payment-services registrations applicable to the intended engagement, validate the Phoebus attribution through an independent corporate channel, and

ensure contractual, PCI, data-protection, and service-continuity requirements are documented before onboarding.

- The homepage identifies PayStore and attributes it to Phoebus.
- The site exposes a privacy-policy page but no supplied page shows a license or registration number.
- The contact page provides the designated route for confirming corporate and service details.

Summary Verdict

PayStore presents as a legitimate, established, and trustworthy business website with a coherent enterprise operating model and no observed scam or impersonation contradictions. Normal interaction, including account login and standard use, is appropriate.

Infrastructure Integrity

The site resolves to three likely origin IPs, with no separate edge-IP layer or CDN identified. Wix.com Ltd. provides the hosting environment, and the resolved infrastructure offers a mitigating managed-platform context without independently proving legitimacy.

Closing Assessment

Prospective users may proceed with normal business engagement, subject to routine contractual, regulatory, and supplier-onboarding checks appropriate for a payment-technology provider.

Written analysis generated 2026-08-02 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of paystore.com.br.

- The request stayed on paystore.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by wixdns.net, across 2 name servers. NOTED
- The registration is paid up to 2032-10-06. CLEAR
- The earliest public archive of this site is from 2018-08-11. CLEAR
- It is hosted on wix_com, from a server in IL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about paystore.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
