

Is pbtech.co.nz legit? TrustSniffer's high-trust assessment: 90/100

pbtech.co.nz

Verdict

90

OUT OF 100

HIGH TRUST

pbtech.co.nz appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-11 by automated analysis. Classification confidence 55%.

What this site appears to be

Retail ecommerce homepage/catalog for PB Tech (New Zealand) listing many brands, departments, promotions, product cards and services such as repairs and trade-in. Content demonstrates standard online store features (product listings, cart, sign in, promotions).

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

PB Tech is an established-looking online consumer electronics retailer presenting computers, peripherals, phones, audio equipment, appliances, gaming products, promotions, repairs, trade-in services, finance options, shopping-cart functionality, and account access for consumer and business customers.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, malicious-content, or conflicting-identity indicators. The site's detailed retail catalogue, normal shopping and account workflows, and consistent electronics-retail presentation are aligned with the stated PB Tech business model. Some browser-session telemetry showed substantial page changes, external requests, and console errors, but these were not accompanied by hidden forms, credential redirection, cloaking, wallet activity, or other abuse patterns; they therefore do not alter the low apparent scam risk. The real-world operator remains independently unverified, so the positive assessment is evidence-consistent rather than proof of corporate identity.

EVIDENCE

- The homepage presents a full consumer-electronics catalogue, department navigation, promotions, cart functions, sign-in, repairs, trade-in, and support services.
- Domain registration evidence records 1997-02-02T11:00:00Z and an age of 29.54 years.
- External reputation checks recorded 0 malicious detections, 0 suspicious detections, 0 abuse reports, and a global traffic rank of 22947.
- Browser interaction testing recorded 15 external XHR requests, 8 external posts, 124 console errors, and no hidden forms, wallet activity, clipboard interception, or cloaking.

Regulatory Verification Notes

The site presents itself as a commercial retailer rather than as a regulated financial or investment service. The supplied evidence does not independently verify the operating legal entity, and no licensing claim or registration number is evidenced on the reviewed site material; this is a verification and disclosure point, not an indication of impersonation. The listed registrar is Sitetech Solutions Ltd T/A SiteName. Transport security is present through a valid domain-validated certificate, while the site's established registration continuity and clean external reputation support an apparently legitimate commercial presence. No broker-dataset match was identified, although that contextual signal is not a legal or licensing determination.

EVIDENCE

- The domain is registered through Sitetech Solutions Ltd T/A SiteName.
- Hosting telemetry identifies AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- The TLS certificate is issued by WE1, uses DV validation, and is valid through 2026-09-24T22:33:11+00:00.
- The homepage and navigation expose About Us, Returns & Warranty, Help & Support, and store-service areas, but the supplied page evidence contains no licensing authority or license number.

What to Verify Next

Before credential or payment interactions, an independent corporate or merchant-identity check should connect the PB Tech trading presence to the relevant real-world entity. The applicable consumer-commerce registration or licensing position should be confirmed with the relevant official registry where required, and the Returns & Warranty, finance, delivery, and payment-protection terms should be reviewed directly on the corresponding site pages. Contact and support channels should be confirmed through an independently sourced official route before resolving account or payment disputes.

EVIDENCE

- The homepage provides account registration and sign-in functions, making independent merchant-identity confirmation relevant before credential use.
- The site's navigation includes Returns & Warranty, Help & Support, Find a Store, and finance-related services for direct terms review.
- The supplied regulatory evidence records no licensing claim, authority, or registration number, supporting an independent applicability check rather than a conclusion of wrongdoing.

Summary Verdict

The overall posture is **high trust with low apparent scam risk**. Available evidence is consistent with an established, apparently legitimate retail website, while the operator's real-world identity remains unverified; legitimacy should therefore be treated as strongly supported but not independently proven.

Infrastructure Integrity

The site is protected by Cloudflare's CDN/WAF infrastructure, with observed addresses functioning as CDN edge servers and no origin address exposed in the supplied infrastructure view. This provides a meaningful mitigating control against direct origin exposure, although protective hosting infrastructure alone does not establish business legitimacy.

Closing Assessment

Ordinary use is proportionate to the assessed posture, with independent merchant-identity, returns-policy, and payment-protection checks completed before credentials or payment details are submitted.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pbtech.co.nz.

- The request stayed on pbtech.co.nz. It was not redirected to another domain. CLEAR
- Registration is published under Sitetech Solutions Ltd T/A SiteName. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pbtech.co.nz at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that

evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
