

Is pecom.ru legit? TrustSniffer's high-trust assessment: 90/100

pecom.ru

Verdict

90
OUT OF 100

HIGH TRUST

pecom.ru appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-13 by automated analysis. Classification confidence 55%.

What this site appears to be

Official website of ПЭК (ПЕК), a logistics and transportation operator in Russia offering a broad set of services (road, air, international, warehousing, fulfillment). The site contains service descriptions, tracking and payment links, contact info, franchise and partner programs, and marketing/promotional banners.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- No flags from the reputation services TrustSniffer consulted at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

Full analysis

Overview

The website presents itself as the corporate site of ПЭК (PEK), a Russian logistics and transportation operator offering road, air and international freight services, warehousing, fulfillment, marketplace delivery, shipment tracking, payment and customer-support functions.

Scam/Impersonation Risk

No contradictions were observed across the reviewed content and technical signals: there was no detected phishing, impersonation, or confirmed malicious-reputation indicator. The homepage presents a coherent corporate-service model, with transport, storage, fulfillment and customer-contact functions rather than an anomalous financial or investment proposition. Interactive testing did identify a hidden form and substantial page changes after interaction, but no external password form, wallet connection, clipboard activity, cloaking, or drainer behavior was detected; this is therefore treated as an implementation and complexity signal, not evidence of impersonation. The real-world operator remains independently unverified, so the positive assessment supports apparent legitimacy rather than proving identity.

EVIDENCE

- The homepage is classified as a corporate logistics service page and presents shipment tracking, payment, contact, quotation and customer-registration functions.
- Domain registration records show registration on 2001-11-22, making the domain approximately 24.74 years old; the registrar is RU-CENTER-RU.
- External reputation checks recorded 0 malicious and 0 suspicious detections, with no confirmed phishing or blacklist hit; the established traffic measurement recorded rank 23166.
- Homepage interaction testing observed 1 hidden form across 2 successful runs, while recording 0 external password forms, 0 wallet-connect runs and 0 cloaking classifications.

Regulatory Verification Notes

The site's business disclosures are broadly consistent with a mature transport operator. Homepage advertising identifies ООО «ПЭК» and provides INN 7721823853, while the content refers to transport, warehousing and fulfillment services. The reviewed material does not independently verify the operator's real-world identity, and no licensing authority or license number is presented in the supplied content; this is a verification and disclosure point rather than evidence of a scam. No matching broker-related reputational signal was identified, but that context does not constitute a legal, licensing or regulatory determination.

EVIDENCE

- The homepage identifies the advertiser as ООО «ПЭК» and displays INN 7721823853 in its promotional disclosures.
- The site's transport and logistics service descriptions provide a business purpose consistent with the stated corporate model.
- The site's transport encryption uses a DV certificate issued by GlobalSign GCC R6 AlphaSSL CA 2025, valid through 2026-10-17T13:47:37+00:00.

What to Verify Next

Before credential or payment interactions, an enterprise or customer should independently confirm that ООО «ПЭК» and the relevant service contract details correspond to the intended legal counterparty. Any applicable transport, forwarding or marketplace-related registration should be checked directly with the relevant Russian registry or authority, rather than relying solely on on-site promotional wording. Customer terms, cancellation and return arrangements, payment protection, and the official support channels should also be reviewed through independently sourced contact details.

EVIDENCE

- The homepage provides links for documents, frequently asked questions, payment, tracking, branch locations and customer onboarding, creating defined points for contractual and operational review.
- The site offers contact through an online chat, telephone and listed social channels, allowing contact-channel confirmation through an independent route.
- The available page analysis identifies three forms—search, shipment tracking and contact/lead—and no untrusted form destination.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** and is consistent with an established, apparently legitimate corporate website. The classification is strong, but it should not be treated as independent proof of the real-world operator's identity.

Infrastructure Integrity

The site resolves to infrastructure operated by HLL-AS - HLL LLC in Russia, with no detected CDN or WAF layer and with two likely origin IP candidates. This provides identifiable hosting context but less intermediary shielding than a mainstream edge network; infrastructure characteristics are mitigating context only and do not establish legitimacy.

EVIDENCE

- The site is hosted on AS51115, HLL-AS - HLL LLC, RU.
- Infrastructure resolution identified 2 unique IP addresses, 0 edge IP addresses and 2 likely origin IP candidates.
- The hosting registry is RIPE NCC and the infrastructure country is RU.

Closing Assessment

Prospective engagement is proportionate for ordinary business use, subject to the independent counterparty, contractual, payment-protection and contact-channel checks outlined above.

Written analysis generated 2026-08-13 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	55/100
Identity verification confidence	60%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pecom.ru.

- The request stayed on pecom.ru. It was not redirected to another domain. CLEAR
- Registration is published under RU-CENTER-RU. CLEAR
- DNS for this domain is served by ru., across 4 name servers. NOTED
- The registration is paid up to 2026-11-23. NOTED
- It is hosted on HLL-AS, from a server in RU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pecom.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
