

Is peresvethotel.ru legit? TrustSniffer's high-trust assessment: 100/100

peresvethotel.ru

Verdict

100

OUT OF 100

HIGH TRUST

peresvethotel.ru appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-07-31 by automated analysis. Classification confidence 75%.

What this site appears to be

Russian-language official homepage for the Russian Seasons Peresvet resort in the Moscow region, advertising eight hotels, cottages, restaurants, spa facilities, sports and family activities, and corporate-event venues. It provides booking calls to action, multiple telephone numbers, local addresses, domain-based email contacts, social links, and privacy, cookie, and offer-agreement notices.

- Automated classification: Not Scam.
- Public web-archive history exists since 2014.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

The website is the official Russian-language booking and information portal for the Russian Seasons Peresvet resort in the Moscow region, presenting eight hotels, cottages, restaurants, spa and wellness facilities, recreation, and corporate-event services supported by identifiable addresses and direct booking channels.

Scam/Impersonation Risk

No identity contradictions, brand impersonation, phishing behavior, or other scam indicators were observed. The resort-focused content, consistent branding, physical hospitality offering, and long-running web presence converge on a legitimate, established operating website. The homepage contains no login form, hidden form, external password submission, cryptocurrency mechanism, or credential-harvesting pattern.

- The homepage identifies Russian Seasons Peresvet as a hotel and resort operation and presents eight named accommodation properties alongside dining, wellness, recreation, conference, and booking content.
- The homepage publishes local addresses, telephone numbers, domain-based contact channels, and links to established social platforms.
- Registered in 2014 (~11.6 years old); 341 archive snapshots span 2014–2026, covering 13 tracked years with no detected suspicious repurposing.
- External reputation checks recorded 0 malicious and 0 suspicious detections, no phishing finding, no confirmed reputation-list hit, and no reported abuse associated with the hosting address.

Regulatory Verification Notes

The site presents a conventional hospitality business rather than a financial, investment, brokerage, or virtual-asset service. Its homepage provides privacy, cookie, and offer-agreement notices, which support a structured commercial presence. No licensing claim or license number is presented, but the supplied evidence does not establish that a sector-specific license is expected for the advertised accommodation, dining, wellness, recreation, and event-booking activities; this is therefore not evidence of misconduct.

- The homepage describes revenue-generating services based on hotel and cottage reservations, restaurants, spa treatments, recreation, and corporate events.
- The homepage provides privacy, cookie, and contractual offer notices for visitors and customers.
- The site is served from AS198610 (BEGET-AS — Beget LLC, RU).
- The site's transport encryption uses a YR1-issued domain-validated certificate, valid until 2026-10-05.

What to Verify Next

For material reservations, corporate events, or advance payments, counterparties should match the contracting entity and payment recipient against the applicable offer agreement and booking documentation. Reservation details, cancellation terms, included services, and the selected property address should be confirmed through the site's published channels before funds are transferred.

- The homepage promotes multiple distinct hotels and cottages, making property-specific confirmation relevant to each booking.
- The homepage advertises special offers, spa packages, bonus arrangements, and corporate-event services whose commercial terms may differ.
- The available legal notices provide the appropriate starting point for confirming contractual and payment conditions.

Summary Verdict

The website is a legitimate, established, and trustworthy hospitality portal. Its coherent operating identity, substantial commercial content, durable provenance, clean external reputation, and absence of deceptive interaction patterns support normal use, including booking-related account activity and standard transactions.

Infrastructure Integrity

The site resolves directly to a single likely origin address and does not use a detected CDN or WAF edge layer. This is a conventional hosting posture rather than a legitimacy concern; valid TLS protects data in transit, while the absence of an intermediary edge service means availability and network-layer protection depend primarily on the hosting provider.

Closing Assessment

Prospective customers may interact with the site normally, while applying routine transaction controls for material advance payments or complex corporate bookings.

Written analysis generated 2026-07-31 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	73/100
Identity verification confidence	74%

- Trusted social count=1

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of peresvethotel.ru.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about peresvethotel.ru at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
