

# Is permasis.org safe? TrustSniffer's low-trust assessment: 40/100

permasis.org

## Verdict

40

OUT OF 100

LOW TRUST

permasis.org is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Local PERMASIS Gamuda Gardens community site offering events, prayer times, donation options, a community marketplace, news and member resources. No evident high-risk features or crypto/financial investment promises.

## Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

## Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2007.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

## Full analysis

### Overview

PERMASIS Gamuda Gardens is a local community association portal for residents in Rawang, presenting community events, prayer times, donation opportunities, a buy-and-sell marketplace, news, galleries, membership resources, and contact functions. Its apparent model is community coordination supported by memberships, donations, and marketplace activity rather than financial investment services.

### Scam/Impersonation Risk

The site's visible content is consistent with a community association and contains no evident crypto, investment, phishing-form, wallet, or other high-risk mechanics. However, this benign presentation is materially outweighed by confirmed external reputation contradictions: independent reputation checks recorded malicious detections and a blacklist hit. The result is a **high-risk sensitive-interaction posture** for credentials, donations, marketplace payments, or other consequential activity. No on-page brand-impersonation or identity inconsistency was observed, but the external findings remain sufficient to prevent treating the site as safe for sensitive use.

#### EVIDENCE

- Homepage: identifies “PERMASIS Gamuda Gardens” and presents events, prayer times, donations, marketplace listings, news, and member resources.
- Homepage behavior: no hidden forms, wallet activity, password submissions to external destinations, clipboard manipulation, or cloaking was detected.
- External reputation checks: 3 malicious detections were recorded, together with a confirmed blacklist hit.

#### Regulatory Verification Notes

The site presents itself as a local community association, but the available evidence does not independently verify the real-world legal operator. No license claim or registration number is presented in the available business-model evidence; for this type of portal, that is primarily a disclosure and beneficiary-verification gap rather than proof of fraud. The domain is relatively recent, and the use of a domain-validated TLS certificate confirms encrypted transport only; neither registration nor encryption establishes the operator’s identity or authorization to receive donations.

#### EVIDENCE

- Domain registration: created 2025-08-15T14:10:56Z, approximately 1.01 years old, with GoDaddy.com, LLC as registrar and expiry on 2027-08-15T14:10:56Z.
- Hosting telemetry: served from AS13335, CLOUDFLARENET - Cloudflare, Inc., US.
- Transport security: TLS certificate issued by WE1 with DV validation, valid to 2026-10-28T23:32:15+00:00.
- Homepage navigation: provides About Us, Donate, Contact, Members, Sign In, and Join Us functions, but the captured evidence does not independently establish the legal beneficiary or governing entity.

#### What to Verify Next

Before any sensitive interaction, an independent local source should confirm that PERMASIS Gamuda Gardens operates the domain and that its published donation recipient is genuine. The association’s legal name, responsible officers, governing arrangements, and any applicable charitable or payment authorization should be checked through relevant official or community records. Donation and marketplace payment details should be validated independently, and the About Us and Contact channels should be reached through an offline or separately sourced route rather than relying solely on the website.

#### EVIDENCE

- Homepage: includes Donate, Marketplace, Members, Sign In, Join Us, About Us, and Contact pathways requiring independent ownership and beneficiary confirmation.
- Homepage: states that it connects PERMASIS communities in Rawang, providing a specific local affiliation to validate through independent community channels.
- Available business-model evidence: records no claimed license authority or license number.

Summary Verdict

The overall posture is **low trust with elevated risk for sensitive interaction**. The community-oriented presentation is not sufficient to overcome the confirmed external reputation contradictions, and the real-world operator remains unverified. Passive informational viewing may be distinguished from actions involving credentials, payments, donations, or account access.

Infrastructure Integrity

Cloudflare CDN/WAF protection is present, and all observed addresses were CDN edge infrastructure rather than an independently visible origin. This reduces direct exposure of the hosting environment but is only a mitigating technical control; it does not validate the site's ownership, content, or reputation.

Closing Assessment

Pending independent confirmation of the association and transaction beneficiaries, activity should remain limited to passive viewing, with credentials and financial information withheld from the site.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

- 01 Governance Risk

  - The public registration record for this domain is incomplete.  
Registration and ownership rule:KF\_WHOIS\_INCOMPLETE
- 02 Sensitive Interaction Risk

  - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of permasis.org.

- The request stayed on permasis.org. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR

- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-15. NOTED
- The earliest public archive of this site is from 2007-10-08. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about permasis.org at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
