

Is perthfix.com.au safe? TrustSniffer's low-trust assessment: 25/100

perthfix.com.au

Verdict

25

OUT OF 100

LOW TRUST

perthfix.com.au is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Extremely minimal landing page showing only 'Coming Soon...'. No links, forms, metadata, social or business information present.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://perthfix.com.au/>

What perthfix.com.au served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2016.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

perthfix.com.au is a minimal prelaunch website whose homepage displays only “Coming Soon...”. It presents no identifiable product, service, pricing, contact channel, or stated business model, so its apparent purpose cannot be established beyond indicating a future site or service.

Scam/Impersonation Risk

Confirmed external threat detections and blacklist entries create a material risk for sensitive interaction, even though the observed homepage does not contain a login form, payment mechanism, phishing prompt, or explicit brand impersonation. The page’s extreme lack of substance prevents meaningful validation of what the domain is intended to represent. The domain appears long-established and has an archival presence across multiple years, but that continuity does not overcome the adverse external reputation signal. No suspicious contact-email anomaly was observed.

EVIDENCE

- External reputation telemetry recorded 5 malicious detections and confirmed blacklist status for the domain.
- The homepage contains only “Coming Soon...” and no forms, links, transactional elements, or stated service.
- Domain registration continuity indicates an age of 9.92 years, with archived captures from 2016-09-17 through 2025-11-12 across 10 years tracked.

Regulatory Verification Notes

The available site content provides no legal-entity, licensing, registration, or regulatory disclosure; this is a substantive transparency gap because the homepage is only a placeholder. The registration record lists JESSUP, GLEN NEVILLE as the registrant and Web Address Registration Pty Ltd as registrar, but those records do not independently verify the operator of any future service. A valid domain-validated certificate and identifiable hosting provide technical continuity, not evidence of regulatory authorization. No broker-dataset match was identified, which is contextual only and does not establish licensing or legitimacy.

EVIDENCE

- The homepage provides no company name, legal terms, license claim, registration number, or regulated-activity disclosure.
- Registration telemetry lists JESSUP, GLEN NEVILLE as registrant and Web Address Registration Pty Ltd as registrar.
- The site is served from AS38719 (DREAMSCAPE-AS-AP - Dreamscape Networks Limited, AU).
- TLS is issued by YR2 at DV validation level and is valid to 2026-10-26T23:59:31+00:00.

What to Verify Next

Before any future service is launched or promoted from this domain, the operator should be independently linked to a registered legal entity and any claimed financial or other regulated activity should be confirmed through the relevant official registry. Any forthcoming terms, privacy notice, refund arrangements, and customer-support channels should be reviewed for consistency with that entity. Confirmation should be obtained through an independently sourced contact route rather than relying solely on information later published on the domain.

EVIDENCE

- The homepage currently supplies no operational, legal, or customer-service material against which those checks can be completed.
- The available identity evidence does not independently verify the real-world operator.
- The site presents no stated business model, product, pricing, or regulated service to match against a licensing requirement.

Summary Verdict

The overall posture is **low trust**, with a high likelihood that sensitive interaction risk is not acceptable on the evidence currently available. Identity remains unverified, and the adverse external reputation signal outweighs

the site's limited technical and historical continuity indicators.

Infrastructure Integrity

The domain resolves directly without an identified CDN or WAF, with two likely origin addresses exposed. This provides no meaningful protective infrastructure mitigation; the hosting arrangement is a basic technical delivery mechanism rather than evidence of legitimacy.

Closing Assessment

Login, credential submission, and financial interaction should be withheld unless the operator, intended service, and supporting legal framework are independently confirmed through trusted channels.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of perthfix.com.au.

- The request stayed on perthfix.com.au. It was not redirected to another domain. CLEAR
- Registration is published under Web Address Registration Pty Ltd. CLEAR
- DNS for this domain is served by syrahost.com, across 2 name servers. NOTED

- The earliest public archive of this site is from 2016-09-17. CLEAR
- It is hosted on DREAMSCAPE-AS-AP, from a server in AU. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about perthfix.com.au at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
