

Is petelazer.com legit? TrustSniffer's high-trust assessment: 100/100

petelazer.com

Verdict

100

OUT OF 100

HIGH TRUST

petelazer.com appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 50%.

What this site appears to be

Public-facing site for Pete Lazer, an Australian presenter/MC. Contains biography, experience, testimonials, gallery and contact email for bookings. No forms or financial solicitations detected.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2005.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is a personal professional portfolio for Pete Lazer, an Australian presenter, host, and master of ceremonies. It presents biographical information, professional experience, testimonials, event imagery, media-related credits, and booking contact details, with an apparent business model based on paid presenting, hosting, promotional, and event-management engagements.

Scam/Impersonation Risk

No contradictions were observed. The homepage and portfolio content describe a coherent personal brand focused on presenting and event work, including claims of hosting television programs, sporting crowds, award events, and other large public engagements. Those promotional claims are not independently validated by the supplied evidence, but they are consistent with ordinary portfolio positioning and do not indicate phishing, impersonation, credential harvesting, or financial abuse. Behavioral testing recorded suspicious inline scripts, elevated external activity, and console errors; however, the same testing found no hidden forms, password-exfiltration forms, wallet activity, clipboard manipulation, cloaking, or non-whitelisted external submissions. These technical anomalies therefore do not establish a scam or impersonation contradiction.

EVIDENCE

- The homepage presents the title “Presenter | Host | MC - Pete Lazer” and provides biography, experience, testimonials, gallery material, and booking context.
- The domain was registered in 2004 and is approximately 22.1 years old.
- External reputation checks recorded no malicious or suspicious detections, although reputation coverage was partial.
- Behavioral testing found no login form, hidden sensitive form, wallet-connection activity, wallet drainer behavior, or clipboard-hijacking activity.

Regulatory Verification Notes

The site presents as a personal portfolio and booking service rather than a financial, investment, or otherwise regulated offering. No license claim or registration number is identified in the supplied site content; this is a limited disclosure point relevant to confirming the contracting party for paid engagements, not evidence of fraud. Domain registration is through GoDaddy.com, LLC, with privacy registration provided by Domains By Proxy, LLC; this is an administrative ownership detail and does not create an identity contradiction. The available evidence supports an established, apparently legitimate site, while the real-world operator identity remains independently unverified.

EVIDENCE

- Domain registration records identify GoDaddy.com, LLC as registrar and show registration on 2004-07-21 with expiry on 2031-07-21.
- Hosting is provided by Google LLC on AS15169.
- The site uses a DV TLS certificate issued by YR1, valid until 2026-11-07.
- The supplied pages contain no stated license authority or license number.

What to Verify Next

Before entering into a paid booking, the contracting party should be confirmed through an independent professional or event-industry channel, and the engagement should be documented with clear deliverables, cancellation terms, invoicing details, and payment-protection arrangements. Any payment recipient or business name should be checked against the independently confirmed contracting identity, and official contact channels should be confirmed through an offline or separately sourced route.

EVIDENCE

- The site’s stated commercial pathway is booking and management enquiry rather than online financial transaction processing.
- The supplied page analysis identified no payment form, credential-collection form, or sensitive submission workflow.
- The portfolio includes experience and testimonial pages that can be used as reference points when independently validating a proposed engagement.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website and supports a high-trust, low-risk posture. The conclusion concerns the website’s observed identity, content, and technical behavior; it does not independently prove the real-world identity of the operator.

Infrastructure Integrity

The site is hosted on Google Cloud infrastructure, with no separate CDN or WAF layer identified and no origin candidate identified in the available resolution results. Google Cloud is a mainstream hosting environment and provides a modest mitigating infrastructure signal, but hosting infrastructure alone is not proof of operator legitimacy.

Closing Assessment

Routine browsing is proportionate; before credential or payment interactions, ordinary independent checks of the contracting identity, engagement terms, and payment protections should be completed.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of petelazer.com.

- The request stayed on petelazer.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by siteground.net, across 2 name servers. NOTED
- The registration is paid up to 2031-07-21. CLEAR
- The earliest public archive of this site is from 2005-04-03. CLEAR
- It is hosted on GOOGLE, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about petelazer.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
