Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as a Barcelona tourism and local-experience business offering guided photography walking tours, personalized tours, airport transfers, galleries, reviews, booking information, and related visitor services. Its apparent business model is to generate revenue through bookings for in-person experiences rather than through financial products or investment returns.

Scam/Impersonation Risk

The site carries a **critical sensitive-interaction risk** because external threat intelligence records a confirmed blacklist status, 12 malicious detections, and one suspicious detection, including detections from multiple established security providers. This is a material contradiction to the otherwise ordinary tourism presentation. The supplied page content itself describes photography tours and shows no login or payment form, and no brand impersonation, phishing form, or conflicting legal identity was identified in the captured material; however, those benign page characteristics do not offset the confirmed external detections. No identity contradiction was observed.

EVIDENCE

- External reputation telemetry records 12 malicious detections and 1 suspicious detection; blacklist status is confirmed.
- The homepage presents “Photo Walking Tours Barcelona” and navigation for tour descriptions, galleries, booking, contact, and related local services.
- Domain registration records show creation on 2017-03-31, an age of 9.39 years, and registrar PDR Ltd. d/b/a PublicDomainRegistry.com.
- Archive telemetry records 0 snapshots, with first seen on 2018-08-06 and last seen on 2026-05-16, across 9 years tracked.

Regulatory Verification Notes

The supplied site material does not independently establish the real-world operator behind the tourism business. No licensing or registration information is disclosed in the available content; for a local tour provider, the applicability of a specific tourism licence depends on the services and jurisdiction, but the absence of an identifiable legal operator limits accountability for bookings, refunds, and complaints. Valid transport encryption and a known registrar are positive technical or administrative facts, but neither establishes legitimacy or regulatory standing.

EVIDENCE

- The available navigation includes booking, FAQ, contact, and tour-information pages, but the supplied content does not identify a verified legal entity or licence number.
- The site is served from AS203053, operated by ClausWEB - CLAUS WEB srl, RO.
- The TLS certificate is issued by YE1, uses DV validation, and is valid until 2026-10-13T22:00:16+00:00.

What to Verify Next

Before any sensitive interaction, an independent check should confirm the operator's legal name and authority to provide the advertised tours through the relevant Spanish or Barcelona business and tourism registries. Booking terms, cancellation and refund conditions, venue or guide details, and the payment recipient should be validated through an independently sourced channel rather than relying solely on the website. If a transaction is ultimately considered, payment protection and the ability to dispute the charge should be confirmed in advance.

EVIDENCE

- The booking and personalized-tour sections indicate that the site is intended to support paid local-experience reservations.
- The supplied HTML contains no visible login form, payment form, or sensitive-data form, so the actual transaction flow remains outside the captured page evidence.

Summary Verdict

The website should be treated as an unverified, critically elevated-risk destination for sensitive interaction. Its conventional tourism presentation is insufficient to support a trustworthy engagement posture in light of the convergent external threat detections and unresolved operator identity.

Infrastructure Integrity

The site resolves directly to 93.113.54.105 on AS203053, operated by ClausWEB - CLAUS WEB srl in Romania, with one likely origin address and no detected CDN or WAF. The infrastructure is technically resolved and identifiable, but it does not provide an additional edge-protection layer that would mitigate exposure; infrastructure characteristics alone are not evidence of legitimacy.

Closing Assessment

Pending independent confirmation of the operator and transaction arrangements, use should be limited to passive viewing, with no login, credential submission, or payment initiation.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

1 finding contributed to this verdict, raised by analysis engine, external reputation.

01 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.

External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of photowalkingtoursbarcelona.com.

- The request stayed on photowalkingtoursbarcelona.com. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by clausweb.ro, across 3 name servers. NOTED
- The registration is paid up to 2027-03-31. NOTED
- The earliest public archive of this site is from 2018-08-06. CLEAR
- It is hosted on ClausWEB, from a server in RO. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about photowalkingtoursbarcelona.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
