

Is piedepagina.com.mx safe? TrustSniffer's low-trust assessment: 40/100

piedepagina.com.mx

Verdict

40

OUT OF 100

LOW TRUST

piedepagina.com.mx is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-22 by automated analysis. Classification confidence 55%.

What this site appears to be

A Spanish-language ecommerce site (Pie de Página) offering children's books and related products with visible prices, cart functionality, contact email and phone, and social links. Appears to be a normal small online store.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What piedepagina.com.mx served when TrustSniffer captured it on 2026-08-22. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2011.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is a Spanish-language ecommerce website, “Pie de Página,” presenting children’s books and related products through visible catalogues, prices, social links, contact channels, and an on-site cart and checkout; its apparent business model is direct-to-consumer book retail.

Scam/Impersonation Risk

The site’s content appears to be a conventional small online shop and shows no page-level indicators of credential harvesting, brand impersonation, or deceptive payment redirection. However, this benign presentation is materially outweighed by confirmed external reputation contradictions: the domain was identified by two external sources as blacklisted, and two malicious detections were recorded. This creates a high level of concern for payment and other sensitive interactions despite the absence of obvious fraud features on the visible pages. No suspicious contact-email anomaly was identified in the supplied evidence.

EVIDENCE

- The homepage presents children's books, related products, visible prices, and cart/checkout functionality.
- External reputation checks recorded a confirmed blacklist hit across two sources.
- Two malicious detections were recorded during external evaluation.
- The domain was registered on 2010-08-24 and is approximately 16.01 years old; archival coverage records 85 snapshots spanning 2011–2026 across 16 tracked years.

Regulatory Verification Notes

The available site content supports the existence of a retail storefront but does not independently verify the real-world operator. Registration information identifies Vleeko SA de CV as both registrant and owner, with Vleeko SA de CV also listed as registrar; this is an administrative registration fact, not proof that the storefront and registrant are the same operating entity. No licensing claim or registration number was presented in the supplied site material, and the on-page legal disclosure position is unclear. That is a regulatory-transparency gap requiring confirmation, not by itself evidence of fraud. The available broker-reputation dataset contained no match.

EVIDENCE

- Registration records list Vleeko SA de CV as owner and registrar, with creation on 2010-08-24 and expiry on 2027-08-23.
- Hosting is recorded on AS8560, IONOS-AS – IONOS SE, DE.
- The site uses a domain-validated TLS certificate issued by YR2, valid until 2026-10-03T22:35:38+00:00.

What to Verify Next

Before any payment or account-related interaction, an independent check should confirm that Vleeko SA de CV is the operating entity behind the storefront and that the business's published returns, delivery, refund, and payment-protection terms are enforceable for the intended transaction. The contact channels shown on the contact page should be validated through an independent route, and the applicable business-registration or licensing position should be confirmed with the relevant official registry where required for the transaction type.

EVIDENCE

- The homepage provides a cart/checkout pathway for direct customer payments.
- The site displays a contact phone number, contact channel, and links to Facebook and Instagram.
- The supplied page material does not establish a verified legal-entity relationship between the storefront and the registrant.

Summary Verdict

The website has a conventional retail presentation and a long registration history, but its overall trust posture is low because confirmed external reputation contradictions create elevated risk for sensitive interaction. Identity linkage remains likely rather than independently verified, so the apparent commercial purpose should not be treated as proof of operational legitimacy.

Infrastructure Integrity

Cloudflare CDN/WAF protection provides a mitigating layer against direct exposure of the web service, while the observed edge infrastructure is associated with AS8560 and IONOS-AS – IONOS SE, DE; the origin server was not observable in this analysis. This protective arrangement supports transport and edge resilience but does not resolve the reputation findings.

Closing Assessment

The appropriate posture is to defer payment, credential submission, and other sensitive use until the operator relationship, transaction protections, and applicable business status have been independently confirmed.

Written analysis generated 2026-08-22 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, behaviour in a sandbox.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - The page rewrote itself after it was interacted with, so what a visitor first sees is not what they end up on.
Behaviour in a sandbox rule:BEHAV_DOM_DIFF_AFTER_INTERACTION

Identity verification

Status	LIKELY
Identity score	76/100
Identity verification confidence	76%

- Trusted social count=2

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of piedepagina.com.mx.

- The request stayed on piedepagina.com.mx. It was not redirected to another domain. CLEAR
- Registration is published under Vleeko SA de CV. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED

- The registration is paid up to 2027-08-23. NOTED
- The earliest public archive of this site is from 2011-02-06. CLEAR
- It is hosted on IONOS-AS, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about piedepagina.com.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
