Full analysis

Overview

Pierrot is a Japanese online women's fashion retailer presenting clothing, shoes, bags, accessories, seasonal collections, sales, customer reviews, styling content, and membership benefits through a direct-to-consumer storefront.

Scam/Impersonation Risk

No contradictions, phishing indicators, brand impersonation, malicious detections, or confirmed blacklist findings were observed. The homepage presents a coherent retail model with detailed product categories, pricing, reviews, size guidance, customer-support links, and membership functionality; its content is consistent with ordinary fashion commerce rather than deceptive financial or credential-harvesting activity.

- The homepage identifies Pierrot as a women's fashion ecommerce site with clothing, accessories, sales, reviews, and customer services.
- The homepage exposes no sensitive login form, hidden form, wallet connection, or untrusted form destination.
- External reputation checks recorded zero malicious and zero suspicious detections, with no blacklist finding.

Regulatory Verification Notes

The site's stated activity is consumer fashion retail, not a regulated financial service, and no licensing contradiction is present. The available content supports a legitimate merchant identity through its retail catalog, customer-service structure, membership benefits, and social presence. Corporate registration details or a formal licensing number are not documented in the supplied site evidence; this is a limited transparency point for merchant due diligence, not evidence of impersonation or fraud.

- The homepage provides shopping guides, frequently asked questions, contact access, membership information, and product reviews.
- The site is ranked within the global top one million websites, with an exact recorded rank of 136704.
- The site is hosted on AS23824, FUTURE - Future Spirits Co.,Ltd., JP.
- TLS uses GlobalSign GCC R6 AlphaSSL CA 2025, DV validation, and is valid to 2026-08-21.

What to Verify Next

Before a commercial relationship or high-value purchase, confirm the merchant's legal trading details and consumer-return terms through the site's official customer-service and shopping-guide channels, and validate those details against an independent business registry where required.

- The homepage links to shopping guidance, frequently asked questions, contact services, and membership terms.
- The retail model is supported by product listings, category navigation, promotions, reviews, and customer-service content.

Summary Verdict

The website has a high-trust posture and is assessed as a legitimate, established online retailer. The available page content, technical evidence, external reputation, and observed behavior converge without contradiction.

Infrastructure Integrity

The supplied infrastructure evidence does not establish a trusted CDN or WAF layer, and no additional origin-protection conclusion is available. This limits infrastructure-based mitigation but does not offset the site’s otherwise favorable trust assessment.

Closing Assessment

Normal interaction, including account login and standard shopping activity, is appropriate, subject to ordinary consumer due diligence for purchases and merchant terms.

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pierrotshop.jp at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
