## Key findings

---

- Automated classification: Not Scam.
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.
- The operator behind the site could not be independently connected to a real-world brand or person.

## Full analysis

---

### Overview

Yomedia is a Vietnamese integrated marketing agency presenting programmatic advertising services for advertisers and publishers, including audience targeting, campaign optimization, brand-safety controls, and related advertising technology capabilities.

### Scam/Impersonation Risk

No phishing, impersonation, blacklist, or conflicting-identity indicators were observed. The homepage presents a coherent business model centered on DSP, SSP, and DMP services, brand-safety controls, audience targeting, and campaign performance; its stated purpose is consistent with a conventional corporate advertising agency. Normal website interaction, including account login where applicable, is appropriate.

- The homepage identifies Yomedia as an integrated marketing agency and describes services for advertisers and publishers.
- The homepage reports brand-safety controls using Integral Ad Science technology and audience-targeting capabilities.
- Behavioral inspection found no login form, hidden form, password-exfiltration destination, wallet connection, clipboard manipulation, or cloaking.

### Regulatory Verification Notes

The site provides business contact details and a physical Ho Chi Minh City address, supporting a tangible corporate presentation. It does not state a financial, investment, or other regulated-service license, which is consistent with the advertised marketing and advertising-technology business; any applicable corporate or sector registration should therefore be confirmed independently if required for a specific engagement. One isolated external reputation classification is a soft, non-confirmatory signal and is not supported by page-level fraud findings or a blacklist result.

- The homepage lists telephone and fax contact details and an address in District 1, Ho Chi Minh City, Vietnam.
- The homepage does not claim a regulated financial license or provide a license number.
- The domain was first observed in 2013 and is approximately 13.3 years old.
- The site has 105 archive snapshots spanning 2013–2025, covering 13 tracked years.

### What to Verify Next

For procurement or material commercial engagement, confirm the contracting legal entity, applicable Vietnamese business registrations, and any sector-specific obligations through authoritative registries. Validate the published business contacts through an independent corporate or offline channel and ensure contractual documentation identifies the same entity represented on the site.

- The homepage provides a named business presentation, contact channels, and a physical address suitable for independent confirmation.
- The site describes a business-to-business service model rather than soliciting deposits, investments, or other financial transactions.

Summary Verdict

The website presents as a legitimate, established, and trustworthy corporate service provider with no observed scam or impersonation contradictions. Its coherent business purpose, sustained historical presence, stable technical behavior, and professional disclosures support a high-confidence positive trust posture.

Infrastructure Integrity

The site is protected by Cloudflare CDN/WAF infrastructure, which provides a mitigating layer against direct exposure of the origin. The observed edge address resolves through AS135905, operated by VNPT-AS-VN – Vietnam Posts and Telecommunications Group; the origin server was not observable in this analysis.

Closing Assessment

Standard browsing, business contact, account access where provided, and ordinary engagement are appropriate, subject to normal procurement and contractual due diligence for the proposed service.

Written analysis generated 2026-08-03 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

|                                  |            |
|----------------------------------|------------|
| Status                           | UNVERIFIED |
| Identity score                   | 30/100     |
| Identity verification confidence | 50%        |

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pinetech.vn.

- The request stayed on pinetech.vn. It was not redirected to another domain. CLEAR
- The earliest public archive of this site is from 2013-04-26. CLEAR
- It is hosted on VNPT-AS-VN, from a server in VN. NOTED

## About this assessment

A trust score summarises the evidence TrustSniffer could collect about pinetech.vn at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
