What pitadacriativa.com served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2020.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Fortinet flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

Pitada Criativa is a corporate consultancy website presenting branding, digital marketing, sales-process automation, ecommerce implementation, and related business-development services, with revenue apparently derived from client engagements and project work.

Scam/Impersonation Risk

The site presents a coherent small-business consultancy profile, and its homepage contains substantial service and marketing content without a login form, cryptocurrency functionality, or an apparent investment scheme. However, this benign presentation is outweighed by confirmed external security contradictions: the domain is blacklisted, and external security telemetry recorded multiple malicious detections, including a Tier-1 vendor detection. Browser analysis also observed repeated console errors, non-whitelisted external posting activity, and suspicious network behavior. No conflicting legal-entity names, brand impersonation, or phishing form was identified in the supplied page evidence, but those absences do not offset the confirmed blacklist and malicious detections.

EVIDENCE

- The homepage describes Pitada Criativa as a marketing, sales, and digital-business consultancy offering branding, digital marketing, sales automation, ecommerce setup, and blog resources.
- External security telemetry recorded 5 malicious detections and 1 suspicious detection, with a Tier-1 threat detection present; the domain was also recorded as blacklisted.
- Domain registration telemetry records creation on 2019-04-18, with an age of approximately 7.34 years, through PDR Ltd. d/b/a PublicDomainRegistry.com.

Regulatory Verification Notes

The available material supports a commercial consultancy model rather than a clearly regulated financial service. The site does not present a license number or regulatory authority for independent confirmation, so its legal and regulatory standing remains unverified from the website content alone. This is a disclosure and verification gap, not by itself evidence of a scam. Independently connecting the website to a real-world operator also remains unresolved. A valid transport certificate and identifiable hosting infrastructure are technical properties only and do not establish legal identity or authorization.

EVIDENCE

- The homepage and service content identify a business consultancy but do not state a licensing authority or license number.
- The site's hosting telemetry records AS13335, CLOUDFLARENET – Cloudflare, Inc., US.
- The site's TLS certificate is issued by WE1 at DV validation level and is valid until 2026-10-30T05:47:09+00:00.

What to Verify Next

Before any sensitive interaction, an independent corporate-registry check should confirm that Pitada Criativa and the responsible operating entity are active and connected to the domain. Any claimed service engagement should be supported by independently verified business contact details, a written contract, identifiable contracting parties, and payment protections appropriate to the transaction. Official contact channels should also be reconciled through an independent route rather than relying solely on information supplied by the website. Login, credential submission, or financial activity should remain suspended unless these checks produce consistent results.

EVIDENCE

- Corporate identity should be checked against an independent business registry because the site does not independently establish its operating entity.
- Any licensing or authorization claim should be checked directly with the relevant authority because no license number is presented on the site.
- The contact page and service pages provide the website-originated channels that require independent reconciliation before engagement.

Summary Verdict

The overall posture is critical, with a clear sensitive-interaction risk. The website’s professional consultancy presentation is not sufficient to establish trust because confirmed external security contradictions materially undermine confidence, while the real-world operator remains unverified.

Infrastructure Integrity

The website is protected by Cloudflare’s CDN/WAF infrastructure, and all observed addresses were CDN edge addresses rather than an observable origin server. This provides a mitigating layer against direct origin exposure but does not validate the site’s legitimacy or neutralize the external security findings.

Closing Assessment

The appropriate posture is passive viewing only until independent identity, business, and security checks are completed; account access, credential submission, and financial transactions should not proceed in the interim.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pitadacriativa.com.

- The request stayed on pitadacriativa.com. It was not redirected to another domain. CLEAR
- Registration is published under PDR Ltd. d/b/a PublicDomainRegistry.com. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-04-18. NOTED
- The earliest public archive of this site is from 2020-10-31. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pitadacriativa.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
