

Is pizzeria-aixlesbains.com safe? TrustSniffer's low-trust assessment: 40/100

pizzeria-aixlesbains.com

Verdict

40

OUT OF 100

LOW TRUST

pizzeria-aixlesbains.com is low-trust and potentially risky.

Several risk patterns were present. Do not send money or personal details until you have verified this business another way.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 75%.

What this site appears to be

Pizza ZAZA (Aix les Bains) website with menu listings (several pizzas and descriptions), prices, hours, phone number, and address for a pizza truck and pizzeria.

Evidence status and limitations

Evidence completeness: UNKNOWN

- The real-world operator identity was not independently verified.
- Module-level completeness metadata is unavailable for this legacy report.

What pizzeria-aixlesbains.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2018.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is the Pizza ZAZA website, a local restaurant site presenting a pizzeria and food-truck offering for visitors seeking menu information, opening hours, location details, and potential takeaway or pickup services.

Scam/Impersonation Risk

No conflicting legal-entity names or on-page brand-impersonation indicators were identified, and the homepage content is consistent with an ordinary local pizzeria: it lists pizzas such as La Vissana, La Bresaola, and four-cheese pizza, together with prices, operating hours, a telephone contact, and a physical location. However, this benign presentation is materially contradicted by confirmed blacklist status and external malicious detections associated with the domain. The site's observed behavior did not show login forms, credential harvesting, wallet activity, cloaking, or suspicious script behavior, but those clean page-level characteristics do not resolve the external reputation contradiction.

EVIDENCE

- The homepage and menu content describe Pizza ZAZA as a pizzeria and pizza truck, with named food products, prices, opening hours, telephone contact, and a local address.
- External reputation assessment records a confirmed blacklist hit and malicious detections associated with the domain.
- The domain was registered through IONOS SE on 2014-04-14T11:47:11Z and is recorded as 12.36 years old.
- Web-archive records contain 257 snapshots spanning 2018-07-14T19:21:15Z to 2026-04-16T21:30:47Z, with 9 years tracked.

Regulatory Verification Notes

The available legal-content evidence is limited to a “Mentions légales” link and does not establish a clearly identified operating entity, registration detail, or applicable business authorization. The site’s operator identity therefore remains unverified, and the legal disclosure is insufficient for a regulated or enterprise onboarding decision. The absence of a broker-dataset match provides no independent regulatory assurance, while the confirmed external blacklist status remains a significant reputational concern rather than a licensing determination.

EVIDENCE

- The site navigation includes a “Mentions légales” page, but the supplied page content does not provide a confirmed legal entity or license number.
- Domain registration records identify IONOS SE as registrar, with expiration recorded as 2027-04-14T11:47:11Z.
- The site’s hosting infrastructure is AS53589, PLANETHOSTER-8 – PlanetHoster, CA.
- The transport certificate is issued by YR2 at DV validation level and is valid to 2026-10-25T01:01:16+00:00.

What to Verify Next

Before any transaction, an independent offline or directory-based check should confirm that the business operating under the Pizza ZAZA name is connected to the advertised premises and contact channels. The operator information in the legal notices should be obtained and checked against the applicable French business registry, and any ordering or payment flow should be limited to a payment method offering established dispute and chargeback protection. No credentials or unrelated personal information should be submitted to a site whose domain reputation remains contradicted by external detections.

EVIDENCE

- The homepage provides the business-facing restaurant and food-truck presentation that should be corroborated independently.
- The “Mentions légales” location is the relevant site page for identifying the operator and reviewing business disclosures.
- The observed page capture contained no login form or sensitive data-collection form, so any later request for such information would represent a material change in the interaction profile.

Summary Verdict

The overall posture is **low trust with elevated sensitive-interaction risk**. The site appears to present a plausible local restaurant operation, but the confirmed external reputation contradiction and unresolved operator identity prevent the website from being treated as reliably legitimate for sensitive engagement.

Infrastructure Integrity

The site resolves directly to one observed hosting address on PlanetHoster’s AS53589 infrastructure in Canada, with no CDN or WAF vendor detected. This provides a clear hosting path but does not independently establish legitimacy or offset the external reputation concerns.

Closing Assessment

The appropriate posture is read-only review unless the business identity and transaction channel are independently corroborated; credentials, payment details, and other sensitive information should not be submitted in the interim.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine.

01 Governance Risk

- The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pizzeria-aixlesbains.com.

- The request stayed on pizzeria-aixlesbains.com. It was not redirected to another domain. CLEAR
- Registration is published under IONOS SE. CLEAR
- DNS for this domain is served by ui-dns.com, across 4 name servers. NOTED
- The registration is paid up to 2027-04-14. NOTED
- The earliest public archive of this site is from 2018-07-14. CLEAR
- It is hosted on PLANETHOSTER-8, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pizzeria-aixlesbains.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
