

Is planchashop.fr legit? TrustSniffer's high-trust assessment: 80/100

planchashop.fr

Verdict

80

OUT OF 100

HIGH TRUST

planchashop.fr appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Low Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 65%.

What this site appears to be

Planchashop appears to be a French-language culinary magazine site offering daily articles, equipment guides, recipes, restaurant reviews and FAQs. Content is editorial and informational with no visible financial solicitations or credential requests.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

Key findings

- Automated classification: Not Scam.
- Domain age: 1 to 3 years (registration continuity).
- Public web-archive history exists since 2008.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

Planchashop is a French-language culinary magazine presenting daily articles on food trends, recipes, kitchen equipment, weight-loss cooking, products, restaurants, and bars. Its apparent business model is informational and content-supported, with potential advertising, affiliate, or sponsored-content revenue rather than direct financial solicitation.

Scam/Impersonation Risk

No contradictions were observed: there is no detected phishing, impersonation, blacklist, or conflicting-identity signal. The homepage presents ordinary editorial material, including recipes, restaurant coverage, equipment guidance, and promotional content, while the observed pages contain no login form, sensitive-data form, wallet connection, or financial solicitation. The site's historical record also shows continuity across the same general category rather than a suspicious repurposing pattern. The available evidence therefore supports an apparently legitimate, low-risk informational website, although the real-world operator remains independently unverified.

EVIDENCE

- The homepage identifies Planchashop as a daily culinary magazine and displays editorial sections for culinary news, deals, equipment, products, recipes, and restaurant or bar coverage.
- The site's behavioral inspection recorded 2 successful runs, 0 external XHR/fetch requests, 0 hidden forms, 0 wallet-connection runs, and no cloaking classification.
- Historical records contain 105 snapshots spanning 2008–2026, covering 19 tracked years with a longest recorded gap of 3 years.
- The current registration record shows creation on 2024-08-18 and an age of 2.01 years.

Regulatory Verification Notes

The observed business model is an editorial culinary publication, not a site visibly offering regulated financial products or services, so no financial license claim is central to the presented activity. The available evidence does not independently establish the publisher's real-world legal identity, and the site's disclosure position is therefore best treated as unclear rather than proven. This is an identity-verification and transparency matter, not evidence of deception; the external reputation signals supplied contain no blacklist finding, and the broker-context dataset returned no match.

EVIDENCE

- The domain registration identifies NETIM as registrar, with an expiry date of 2027-08-18.
- The site's transport encryption uses a DV certificate issued by WE1, valid through 2026-11-01.
- The homepage's stated activity is culinary publishing, with no visible regulated-finance licensing claim or financial-service solicitation.

What to Verify Next

Before credential or payment interactions, an independent check should confirm the publisher's legal identity, operating address, and ownership of the publication through the site's legal or contact materials and a separate reliable source. If a purchase or affiliate-linked transaction is involved, ordinary checks of the merchant's return terms, payment protections, and the final transaction counterparty should be completed independently. Any commercial relationship or sponsored-content disclosure relevant to a purchasing decision should also be reviewed.

EVIDENCE

- The homepage uses an editorial magazine format and does not expose a credential or payment form.
- The site's stated content areas include equipment, product discovery, and culinary deals, making the final merchant and payment counterparty the relevant subject of any transaction check.

Summary Verdict

Available evidence is consistent with an established, apparently legitimate website with a high-trust, low-risk posture. The conclusion is supported by coherent editorial content, stable technical behavior, clean contradiction checks, and sustained historical continuity, while independent operator identity verification remains incomplete.

Infrastructure Integrity

The site is fronted by Cloudflare's CDN/WAF infrastructure, which is a mitigating control that reduces direct exposure of the hosting environment but does not itself prove legitimacy.

EVIDENCE

- Served through AS13335, CLOUDFLARENET — Cloudflare, Inc., US; all 4 observed addresses were CDN edge addresses and 0 origin candidates were identified.

Closing Assessment

Normal browsing is proportionate to the assessed posture; before submitting credentials or completing a payment, the prospective user should perform the independent publisher, merchant, return-policy, and payment-protection checks described above.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	50%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of planchashop.fr.

- The request stayed on planchashop.fr. It was not redirected to another domain. CLEAR
- Registration is published under NETIM. CLEAR
- DNS for this domain is served by cloudflare.com, across 2 name servers. NOTED
- The registration is paid up to 2027-08-18. NOTED
- The earliest public archive of this site is from 2008-05-13. CLEAR
- It is hosted on CLOUDFLARENET, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about planchashop.fr at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
