

Is pluxeeforfintech.mx legit? TrustSniffer's high-trust assessment: 100/100

pluxeeforfintech.mx

Verdict

100

OUT OF 100

HIGH TRUST

pluxeeforfintech.mx appears legitimate.

Our checks found nothing pointing to fraud. Ordinary care still applies when you pay or sign in.

Not Scam

Safe for Login

Low Risk

Assessed 2026-08-13 by automated analysis. Classification confidence 70%.

What this site appears to be

Official-looking Pluxee Fintech marketing page describing corporate card products, regulatory disclosure, contact options, blog content, and cookie/privacy settings. Content indicates a regulated Mexican fintech offering B2B payment solutions.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

- Automated classification: Not Scam.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2024.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is a corporate fintech marketing site for Pluxee Fintech in Mexico, presenting business and corporate card solutions, digital administration tools, and related payment services for companies, employees, and merchants.

Scam/Impersonation Risk

No phishing, impersonation, blacklist, or other contradictory signals were observed. The homepage presents a coherent corporate-fintech proposition, provides a conventional contact route, and links to established social platforms; technical and behavioral checks found no login form, credential-harvesting mechanism, hidden sensitive form, wallet-drainer behavior, or brand-impersonation indicator. External reputation checks reported no malicious or suspicious detections, and the site has an established public presence. The available evidence is therefore consistent with an established, apparently legitimate website, although the real-world operator identity is not independently verified.

EVIDENCE

- Domain registration record: registered 2023-04-06 and approximately 3.36 years old.
- Web-archive record: 28 snapshots spanning 2024-12-21 through 2026-07-30, covering 3 tracked years.
- The homepage was assessed with no phishing indicators, no sensitive login form, and no detected brand impersonation.
- External reputation telemetry recorded 0 malicious and 0 suspicious detections, with the domain ranked 56227 and included in the top 1 million sites.

Regulatory Verification Notes

The site presents itself as a regulated Mexican fintech and states that its services operate with the support of Fintech regulation. Its stated business model covers the Flexible One, Flexible Bonüs, and Corporativa card products, together with platform, client-administration, and incentive-related services. The legal, privacy, cookie, and corporate-content areas provide useful disclosure context, but licensing details were not independently verified in the supplied evidence; this is a regulatory verification gap rather than evidence of fraud. The registration record uses CSC Corporate Domains, Inc., and names Pluxee International; those records support an apparent corporate association but do not independently prove the operating entity or regulatory authorization. No matching third-party broker profile was identified.

EVIDENCE

- Hosting telemetry identified AS20940, AKAMAI-ASN1 – Akamai International B.V., NL.
- Infrastructure telemetry also identified AS8075, Microsoft Corporation, US, as the hosting provider.
- TLS certificate: issuer YE1, DV validation, valid through 2026-10-02.
- Domain registration record lists CSC Corporate Domains, Inc. as registrar and an expiration date of 2029-04-06.

What to Verify Next

Before credential or payment interactions, an enterprise or consumer should independently confirm the operating company and the relevant Mexican authorization through the applicable official registry. The legal and privacy pages should be checked for the precise contracting entity, service terms, complaint route, and applicable customer protections. Contact details should be confirmed through an independently sourced Pluxee channel, and payment arrangements should be reviewed for ordinary merchant protections, cancellation terms, and dispute procedures.

EVIDENCE

- The site contains legal, privacy, and cookie-disclosure areas suitable for reviewing contractual and data-protection terms.
- The homepage includes a contact or quotation workflow rather than a password-collection form.
- The site publishes corporate and fintech blog content that can be compared with independently sourced company information.
- Social links are present for Facebook, Instagram, YouTube, and LinkedIn.

Summary Verdict

Available evidence supports a **high-trust, low-risk posture** and is consistent with an established, apparently legitimate website. No scam, phishing, impersonation, or other identity contradiction was observed, but the operator connection remains likely rather than independently verified.

Infrastructure Integrity

The site is protected by CDN/WAF infrastructure, with observed traffic served through Microsoft edge infrastructure on AS8075; the origin server was not observable in this analysis. This arrangement is a mitigating security and availability signal, but protective infrastructure alone is not proof of legitimacy.

EVIDENCE

- Observed edge IP: 4.152.162.117 on AS8075.
- CDN/WAF status: enabled; 1 edge IP observed and 0 likely origin candidates identified.
- Infrastructure country and registry: US and ARIN.

Closing Assessment

Normal browsing is proportionate to the available risk posture, while independent identity, contractual, and payment-protection checks should be completed before credentials or payment details are submitted.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pluxeeforfintech.mx.

- The request stayed on pluxeeforfintech.mx. It was not redirected to another domain. CLEAR
- Registration is published under CSC Corporate Domains, Inc. CLEAR
- DNS for this domain is served by cscdns.net, across 2 name servers. NOTED
- The registration is paid up to 2029-04-06. CLEAR
- The earliest public archive of this site is from 2024-12-21. CLEAR
- It is hosted on AKAMAI-ASN1, from a server in NL. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pluxeeforfintech.mx at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
