

Is pnfoundationschool.com a scam? TrustSniffer's high-risk assessment: 0/100

pnfoundationschool.com

Verdict

0

OUT OF 100

CRITICAL RISK

pnfoundationschool.com shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-21 by automated analysis. Classification confidence 55%.

What this site appears to be

Official-looking school site (PN Foundation School) with content describing mission, leadership messages, academics, facilities, gallery, contact phone and email. Powered by an Education WordPress theme; contains registration and transport links but no payment forms or investment solicitations.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

WELCOME TO

What pnfoundationschool.com served when TrustSniffer captured it on 2026-08-21. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2021.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Security Alert

Kaspersky, Sophos flagged this site in external intelligence checks, indicating elevated compromise/scam exposure that requires immediate caution.

This website presents itself as the online presence of PN Foundation School, an educational institution offering visitors information about its mission, leadership, academics, facilities, gallery, admissions-related registration, and transport arrangements rather than online financial services.

Scam/Impersonation Risk

The site has a **material external security contradiction**. Multiple external threat-intelligence detections identify the domain as malicious, and the domain is listed on confirmed blacklists, including detections associated with Kaspersky and Sophos. This conflicts with the benign, official-looking school presentation and means the visible content cannot be treated as sufficient evidence of safety. No separate brand-impersonation or identity contradiction was established in the supplied page analysis, and the page itself contained no obvious phishing form or financial solicitation; those benign page characteristics do not override the confirmed external reputation findings. The published contact address `office.pnfs@gmail.com` is also a contact-channel integrity anomaly because it uses a consumer mailbox for an institutional site, although this is not, by itself, proof of fraud.

EVIDENCE

- External scanning recorded 14 malicious detections, with Kaspersky and Sophos identified among the flagged vendors; the domain was also marked on an external blacklist.
- The domain was registered through GoDaddy.com, LLC on 2018-11-15 and is approximately 7.77 years old.
- Historical records span 2021-09-16 through 2026-03-07, representing 6 years tracked.

Regulatory Verification Notes

The site's content identifies PN Foundation School and describes it as operating under the P N Educational & Welfare Society, with named chairman and director messages and a "Mandatory Public Disclosure" section. Those on-site statements provide context but do not independently verify the real-world operator or establish accreditation, institutional registration, or licensing. The supplied evidence does not establish a verified regulatory status or registration number. The site is therefore unsuitable for reliance on its institutional claims without independent confirmation, particularly given the adverse external security signals. No broker identity match was identified in the available third-party broker dataset; that result is contextual only and does not validate the school.

EVIDENCE

- The homepage identifies PN Foundation School and refers to the P N Educational & Welfare Society, while navigation includes "Mandatory Public Disclosure."
- The site's hosting resolves to AS47583, AS-HOSTINGER, Hostinger International Limited, CY.
- The transport layer uses a DV TLS certificate issued by YE2, valid to 2026-10-16T08:18:50+00:00.

What to Verify Next

An institution claiming to operate a school should be matched independently to the relevant education-authority, accreditation, or statutory registration records, using the legal entity name shown in official records rather than relying solely on the website. The school's physical presence, admissions office, and published contact channels should be confirmed through an independently sourced telephone number or offline institutional record. Until the external security classification is resolved and the operator is independently confirmed, account access, credential submission, downloads, and payment activity should not be undertaken.

EVIDENCE

- The homepage provides admissions-related registration and transport links but was observed without payment forms or sensitive-input forms.
- The contact and leadership content supplies institutional claims that can be compared against independently sourced education records.
- The page analysis identified no login form, hidden sensitive form, wallet connection, or external password-submission destination.

Summary Verdict

The overall posture is **critical risk**. The polished educational presentation is outweighed by confirmed external malicious detections and blacklist status, while the real-world identity remains unverified. The site should not be treated as a trusted destination for sensitive interaction.

Infrastructure Integrity

The site is hosted directly on Hostinger infrastructure associated with AS47583 in Ukraine, with no detected CDN edge layer and likely origin infrastructure exposed through the resolved hosting arrangement. A valid DV TLS certificate provides transport encryption, but this is only a mitigating technical control and does not establish operator legitimacy.

Closing Assessment

Security teams should block or closely restrict sensitive interaction with the domain pending independent resolution of the external detections and confirmation of the institution through authoritative, offline channels.

Written analysis generated 2026-08-21 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

01 Governance Risk

- The registration record withholds contact details for the operator.
Registration and ownership rule:KF_WHOIS_HIDDEN
- Registration details are held behind a privacy service, so no operator is named publicly. This is common and legal, and it also means there is nobody to check.
Registration and ownership rule:KF_WHOIS_PRIVATE

02 Sensitive Interaction Risk

- The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
- An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	UNVERIFIED
Identity score	30/100
Identity verification confidence	25%

- No on-site identity signals detected

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pnfoundationsschool.com.

- The request stayed on pnfoundationsschool.com. It was not redirected to another domain. CLEAR
- Registration is published under GoDaddy.com, LLC. CLEAR
- DNS for this domain is served by dns-parking.com, across 2 name servers. NOTED
- The registration is paid up to 2028-11-15. CLEAR
- The earliest public archive of this site is from 2021-09-16. CLEAR
- It is hosted on AS-HOSTINGER, from a server in UA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pnfoundationsschool.com at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
