- Domain age: 3 to 10 years (registration continuity).
- Public web-archive history exists since 2017.
- No flags from the reputation services TrustSniffer consulted at assessment time.

Full analysis

Overview

This website is an established-looking online retail storefront for PnP Clothing, presenting visitors with apparel, accessories, footwear, delivery and in-store-pickup services for women, men, children and babies. Its apparent business model is direct-to-consumer clothing and general merchandise sales through an ecommerce shopping experience.

Scam/Impersonation Risk

No contradictions were observed: the available evidence shows no phishing, impersonation, malicious reputation, or confirmed blacklist indicators. The homepage presents a coherent retail catalogue, product prices, help and contact pathways, and links to Facebook, Twitter, Instagram and YouTube. A login/register function and checkout capability are present, but the observed forms did not submit sensitive information to an untrusted destination. Browser testing recorded some non-whitelisted external requests and substantial DOM changes after interaction; these were not accompanied by cloaking, hidden forms, password exfiltration, wallet activity, clipboard manipulation or other abuse patterns, and the suspicious-network interpretation was assessed as benign.

EVIDENCE

- The homepage identifies the service as PnP Clothing and displays structured departments for women, men, kids and babies, together with product listings and prices.
- The homepage and browser behavior exposed 37 external XHR requests, 30 external posts, 8 non-whitelisted network events and a maximum post-interaction DOM difference of 1,865; no cloaking or hidden sensitive forms were detected.
- External reputation checks recorded 0 malicious results, 0 suspicious results, 0 abuse reports and no blacklist or phishing hit for the site.
- The domain was registered on 2020-08-25 and is approximately 5.96 years old; archival records contain 16 snapshots spanning 2017–2026, covering 10 tracked years.

Regulatory Verification Notes

The site presents a conventional retail business model rather than a service type for which a financial or trading licence would ordinarily be central. The available page content references company information, careers, investor relations, help and FAQs, but the supplied evidence does not identify a licence or registration number; this is a disclosure point for ordinary merchant verification, not evidence of deception. The operator's real-world

identity remains likely rather than independently verified, so the apparent legitimacy of the storefront should not be treated as proof of the legal entity behind it. A valid domain-validated TLS certificate and stable mainstream hosting support technical continuity, while not independently establishing ownership.

EVIDENCE

- The homepage title describes PnP Clothing as a shop for clothing, accessories and shoes, and the site includes help/contact and FAQ pathways.
- The domain registrar is IPTWINS; the registration record shows creation on 2020-08-25 and expiry on 2026-08-25.
- The site is served from AS16509, AMAZON-02 – Amazon.com, Inc., US.
- The TLS certificate is issued by Amazon RSA 2048 M01, uses DV validation, and is valid to 2026-11-27.

What to Verify Next

Before credential or payment interactions, an intending customer should independently confirm the merchant's legal identity, delivery and return terms, and the payment protections available for disputed or undelivered goods. The published contact and support channels should be confirmed through an independent route, and any company or registration details presented during checkout or on legal pages should be reconciled with the relevant official business registry.

EVIDENCE

- The homepage provides Sign In/Register and ecommerce checkout functionality.
- The site content map includes Help & Contact, FAQs, company information, careers and investor-relations pathways.
- Social links are provided for Facebook, Twitter, Instagram and YouTube.
- The business model is identified as online retail of clothing, accessories and footwear, with delivery and in-store pickup.

Summary Verdict

The available evidence supports a **high-trust, low-risk posture** and is consistent with an established, apparently legitimate ecommerce website. The classification is strong, while the operator's real-world identity remains not independently verified.

Infrastructure Integrity

The website is protected by AWS CloudFront CDN/WAF infrastructure, with observed edge addresses on AS16509 operated by Amazon.com, Inc.; no origin candidate was exposed during the analysis. This reduces direct origin exposure and is a mitigating infrastructure signal, but it is not proof of merchant legitimacy.

Closing Assessment

Normal browsing is proportionate to the assessed posture, while independent merchant-identity, returns and payment-protection checks should be completed before submitting credentials or making a purchase.

Written analysis generated 2026-08-11 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

No rule findings contributed to this verdict.

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of pnpclothing.co.za.

- The request stayed on pnpclothing.co.za. It was not redirected to another domain. CLEAR
- Registration is published under IPTWINS. CLEAR
- DNS for this domain is served by awsdns-22.org, across 4 name servers. NOTED
- The registration is paid up to 2026-08-25. NOTED
- The earliest public archive of this site is from 2017-04-26. CLEAR
- It is hosted on AMAZON-02, from a server in US. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about pnpclothing.co.za at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
