

Is portoegomes.com.br a scam? TrustSniffer's high-risk assessment:
5/100

portoegomes.com.br

Verdict

5

OUT OF 100

CRITICAL RISK

portoegomes.com.br shows high-risk / scam indicators.

This assessment found strong scam indicators. Do not pay, sign in, or share personal details with this site.

Sensitive Interaction Risk

Governance Risk

Assessed 2026-08-20 by automated analysis. Classification confidence 55%.

What this site appears to be

Marketing and contact site for Porto & Gomes Contabilidade (Brazil). Describes services (tax advisory, payroll, company formation), recent blog posts, contact details including physical address, phone and email, and social links.

Evidence status and limitations

- Evidence completeness: UNKNOWN
- The real-world operator identity was not independently verified.
 - Module-level completeness metadata is unavailable for this legacy report.

The page as captured

<https://portoegomes.com.br/>

What portoegomes.com.br served when TrustSniffer captured it on 2026-08-20. The page may look different now.

Key findings

- Automated classification: Sensitive Interaction Risk.
- Domain age: more than 10 years (registration continuity).
- Public web-archive history exists since 2013.
- At least one reputation service TrustSniffer consulted had flagged this domain at assessment time.

Full analysis

Overview

This is the website for Porto & Gomes Contabilidade, presenting Brazilian accounting and professional business services—including tax advisory, payroll, consultancy, company formation, and compliance support—through a commercial lead-generation model built around service engagements.

Scam/Impersonation Risk

Confirmed external reputation contradictions create a critical risk posture for sensitive interaction. The site itself presents a conventional professional-services profile: the reviewed pages contain no login form, credential-harvesting workflow, cryptocurrency investment pitch, or aggressive financial promise, and no cross-page identity contradiction or explicit brand-impersonation finding was identified. Those benign content characteristics do not offset the fact that the domain is blacklisted and associated with multiple malicious detections; the available evidence therefore supports passive review only until the external reputation conflict is independently resolved.

EVIDENCE

- External reputation telemetry records 6 malicious detections, 1 suspicious detection, and a confirmed blacklist status for the domain.
- The homepage is identified as a business/accounting site and contains a single contact form rather than a password or credential form.
- Domain registration records show 2011-10-04, with an age of 14.89 years.
- Archive coverage records span 2013-10-05 through 2024-08-28, representing 12 years tracked.

Regulatory Verification Notes

The website presents an apparent accounting-firm identity, but the available material does not independently establish the operator's legal identity or regulatory standing. No licensing authority or license number is claimed in the supplied business information, so licensing remains a transparency item requiring external confirmation rather than proof of misconduct. A separate broker-reputation dataset produced no match; that contextual result does not resolve the confirmed external reputation issue.

EVIDENCE

- The homepage title identifies "Porto e Gomes Contabilidade BH," while the site describes accounting and tax-related professional services.
- The supplied business records contain no claimed license authority, license number, or license-verification result.
- Hosting telemetry shows AS16276 operated by OVH - OVH SAS, FR.
- The site's TLS certificate is issued by YR2, uses DV validation, and is valid to 2026-09-28T04:53:28+00:00.

What to Verify Next

Before any credential, payment, document submission, or client engagement, an institution should confirm the firm and its contact details through an independently sourced Brazilian corporate or professional registry, and separately confirm any authorization required for the services advertised. The external blacklist and malicious detections should be escalated to the organization's security team for independent domain and endpoint validation. Official contact channels should also be cross-checked through an offline or independently obtained business record rather than relying solely on the website.

EVIDENCE

- The contact page reportedly provides a physical address and telephone details that can support an independent business-identity check.
- The site links to Facebook, X/Twitter, YouTube, Instagram, and WhatsApp, providing channels for cross-validation against independently sourced records.
- The homepage has no sensitive form and no login workflow, limiting the observed interaction surface during review.

Summary Verdict

The overall posture is critical, with sensitive interaction risk overriding the site’s otherwise conventional professional presentation. The available evidence is insufficient to treat the website as trustworthy for credentials, financial activity, or submission of sensitive business information.

Infrastructure Integrity

The website is protected by a CDN/WAF layer, and the observed address is an edge address rather than an independently exposed origin. This provides a mitigating layer against direct infrastructure exposure, but it does not establish legitimacy or neutralize the external reputation contradiction.

Closing Assessment

Restrict activity to passive viewing until independent business, regulatory, and security checks have cleared the domain; credentials, sensitive documents, payments, and financial transactions should not be submitted in the interim.

Written analysis generated 2026-08-20 by the TrustSniffer Analysis Engine from the evidence in this report.

What the analysis found

2 findings contributed to this verdict, raised by registration and ownership, analysis engine, external reputation.

- 01 Governance Risk

 - The public registration record for this domain is incomplete.
Registration and ownership rule:KF_WHOIS_INCOMPLETE
- 02 Sensitive Interaction Risk

 - The analysis matched a pattern TrustSniffer treats as a direct threat to a visitor.
Analysis engine signal:direct_threat
 - An external threat feed lists this domain: either Google Safe Browsing marked it malicious, or a significant number of malware engines flagged it.
External reputation rule:EXT_BLACKLIST_CRITICAL

Identity verification

Status	LIKELY
Identity score	80/100
Identity verification confidence	80%

- Trusted social count=4

Identity verification measures whether the site can be independently connected to a real-world brand or person. It is separate from the classification confidence.

What TrustSniffer observed

First-party facts recorded during the assessment of portoegomes.com.br.

- The request stayed on portoegomes.com.br. It was not redirected to another domain. CLEAR
- DNS for this domain is served by com.br, across 2 name servers. NOTED
- The registration is paid up to 2026-10-04. NOTED
- The earliest public archive of this site is from 2013-10-05. CLEAR
- It is hosted on OVH, from a server in CA. NOTED

About this assessment

A trust score summarises the evidence TrustSniffer could collect about portoegomes.com.br at assessment time. It is a starting point for your own judgement, not a guarantee: a high score means the signals were consistent with a legitimately operated site, a low or critical score means several risk patterns were present.

TrustSniffer assesses a website from the evidence it can collect at a point in time: domain registration and age, hosting and certificate, the content the site served, and third-party reputation feeds. A score is a summary of that evidence, not a guarantee and not a legal finding. There is no human rating and no user review in it. A site can change after it is assessed.
